

Senior Java Developer Senior Java Developer Senior Java Developer - Magellan Healthcare
Basking Ridge, NJ ? Over Thirteen (15) years of strong Java development experience. ? Sun
Certified Java2 Programmer ? Expertise in Distributed computing and Server side programming in
Java. ? Extensive knowledge of Web protocols and Networking with TCP/IP, JMS, MDB. ?
Extensive experience in Developing Internet/Intranet applications, J2EE technologies and Java,
JSP, JSF, Servlets, HTML, JDBC, Hibernate, Spring, AWT, SWING, Applet, RMI, Java Beans, EJB,
JavaScript, Oracle, SQL. Involved in full life cycle development of projects ? Good Experience in
RDBMS (Sybase, DB2, Oracle, PL/SQL and Transact SQL) developing stored procedures and
triggers in SQL Server and Oracle. ? Strong interpersonal/team skills and ability to interact with
people at various levels, Strong organizational skills coupled with high work ethics, Excellent written
and oral communication skills, Capable of delivering optimized, effective and well documented code
independently, Highly self motivated, eagerness to learn and explore. Authorized to work in the US
for any employer Work Experience Senior Java Developer Magellan Healthcare - Richmond, VA
August 2015 to Present Magellan eRebate application focuses on screens showing various
pharmacy clients registered, and rebates on drugs available to clients from different pharmacies.
eRebate also have billing and invoicing modules which focuses on raising invoices to different
clients and processing invoices generated by pharmacies. Responsibilities: ? Requirement
Analysis, Design Reviews, Coding, Code reviews and support for development. ? Involved in full life
cycle end to end application design, development, testing, integration, for Production Support,
Defect Fixing, Root Cause Analysis, Change Management, Monitoring and Ongoing maintenance
tasks. ? Used Agile/SCRUM for development process for application life cyc ? Designing the
application using J2EE best practices, GOF and J2EE design patterns. ? Development of Web
Front End (GUI) using HTML5, CSS3, JQuery, Angular JS, Node JS, React JS, JSON, AJAX, XSL,
JSP. ? Developed REST API using Spring MVC and Spring REST Controllers with JSON. ?
Consumed REST API using Angular JS HTTP Services and render using 2-way binding with HTML5
content for responsive web design and development. ? Worked on Dynamic loading of data while
navigating through the tabs. ? Developed server side JEE application components using Spring,

Spring MVC, Annotations, JSP, Servlets, JDBC, EJB, JMS, J2EE Design Patterns using Eclipse. ? Developed various helper classes needed following Core Java multi-threaded programming and Collection classes. ? Developed Data layer using DAO patterns, ORM and Hibernate. ? Developed messaging components using JMS ? Development of JEE server side layer using XML, XSD, SOAP, JAXB, JDBC, Hibernate, JMS, JDK, JNDI, EJB and DAO patterns using Eclipse IDE ? Develop unit test cases using JUnit and used Log4J for logging and debugging. ? Extensively involved with end users in functional discussions, business review meetings, requirements gathering. ? Worked with multiple technical teams for design and development ? In-depth knowledge of Github and Jenkins for continuous integration. ? Involved in production support, monitoring server and error logs and Foreseeing the Potential Issues, and escalating to the higher levels. ? Involved in analysis of bug fixes and coordination of bug fixes of Mrx Portal App. ? Involved in migration of the same app from Windows server to Linux server ? Involved in migration of applications from Oracle 11g to Oracle 12c ? Involved in migration of application from JSf 1.2 to JSF 2.0 ? Increased Performance by tweaking various java classes and other techniques ? Created user stories in JIRA and assigned relevant tasks to team members ? Developed BackEnd functionality using MongoDB ? Implemented various JSON utility classes Environment: Java 1.5, J2EE, Weblogic, Oracle 11g, SQL, PL/SQL, Eclipse, HTML5, CSS3, JavaScript, Ajax, jQuery, Struts, MongoDB, JSON, XML, Web Services, SOAP, JAXRS, JSF 2.0 Education MS in Computer Science Southern Illinois University at Carbondale - Carbondale, IL 2004 Skills Hibernate, Java, J2Ee, Spring Certifications/Licenses java 2 developer October 2004 Additional Information Technical skills: Programming Languages: JAVA, SQL, PL/SQL, VB 6.0, PHP, Perl, C, C++, UML Scripting Languages: RUBY, PERL, JavaScript, ANT, VBScript, UNIX shell Scripting, Action script Java Technologies and API: J2EE, Servlets, JSP, JSF, JDBC, RMI, Swing/AWT, JUnit, SOAP, JSTL, EJB, Hibernate, JNI, JNDI, Java Mail API, JMock, Drools, Spring. Application Servers: WebLogic Application Server 6.1/7.x, IBM WebSphere 5.0, Tomcat, JBOSS Web Servers: Tomcat, Apache, IBM Http Server, Java Web Server 2.0, IIS RDBMS: Oracle 7.3/8.0/9i, SQL Server 6.5/7.0/2000, DB2, MS-Access 97/2000 Design Tools: Visio, Oracle Designer 2000, SELECT,

Rational Rose, RUP, EA Web Technologies: XML, XSLT, HTML 5, CSS 3, DHTML, JDO, EXT JS, jQuery, BootStrap Java IDE: WSAD, Eclipse, JBuilder5.0, Net Beans, IntelliJ Operating Systems: Windows 95/98/NT/2000/XP, UNIX, Sun Solaris, Linux Version Control Systems: CVS, Clear Case, SVN Other Tools & Protocols: RAPID SQL, SQLDBX, Query Analyzer, TOAD, SQR Brio, PL/SQL Developer,
