

Front End Developer Front End Developer Front End Developer - College of Innovation and Design
Everett, WA Liz is a passionate developer and designer with programming and UX Design skills,
who likes to play with music and audio recording in her off time. Authorized to work in the US for any
employer Work Experience Front End Developer College of Innovation and Design - Boise, ID
August 2016 to May 2019 In this position I worked with agile teams, developers, UX designers, and
artists in order to produce assets in C#, JavaScript, HTML, and CSS languages. I effectively
communicated ideas to team members, and clients. I implemented UI for mobile, web, desktop, and
AR/VR applications; taking the project from beginning brainstorm to final release. I used Unity,
Photoshop, Illustrator, After Effects, InDesign, XD, and Git in order to engage first time users, as
well as keeping current ones. I participated in team meetings, spoke at conferences, and wrote
research papers. I led teams to successful completion of unique projects, and looked for strengths
within my team members. I m extremely proud of the work we did, especially in the case of the
NASA SUITS project (ask me! I d love to show you the basics!), and look forward to creating
meaningful experiences that bring people together. Peer Mentor & Code Tutor BSU's GIMM
Department - Boise, ID September 2016 to May 2018 Education BS in Computer Science:
Games/Interactive Media/Mobile Technology Boise State University - Boise, ID August 2015 to May
