invoices into system. Perform other duties as required. Education MSc in Applied Information Technology Georgia Southern University - Statesboro, GA 2011 to 2013 BTech in Electrical and Electronics Engineering/Communication Ladoke Akintola University of Technology 2003 to 2008 Skills Security (2 years), Excel, HTML, SAP, SQL, Visio, access, testing, MS Office, Microsoft Office, Powerpoint, Active Directory, Security, training, Inventory Management (2 years), Routers (5 years), Firewalls (2 years), Windows (10+ years), Team Management (10+ years) Links <https://www.linkedin.com/in/oaderonmu> Certifications/Licenses SAP Certified (0011057874) August 2013 to Present Associate Business Foundation & Integration with SAP ERP 6.0 EHP5 SAP TERP10 Certification - ERP Systems Using SAP ERP Basics / SAP ERP positioning SAP NetWeaver integration Lifecycle Data Management Procurement Cycle Material Planning Manufacturing Execution Sales Order Management ERP Financials Financials Accounting (FI) Management Accounting-Controlling (CO) Inventory and Warehouse Management/Stock Transfer and Transfer Posting Enterprise asset management and customer service Program and Project Management Human Capital Management / HCM Structures Business Intelligence / Business Information Warehouse Cisco Certified Network Associate(CSCO11751461) March 2008 to March 2013 Foundational networking knowledge of Routing and Switching. Gained knowledge and experience as Network Specialists, Network Administrators, and Network Support Engineers. Ability to install, configure, operate, and troubleshoot medium-size routed and switched networks ITIL v3 March 2017 to Present Publications Development and Testing of a Survey Instrument to Assess Ethical Perceptions of IT and IS Students <https://digitalcommons.georgiasouthern.edu/information-tech-facpubs/9/> 2013-05 The purpose of this research study is to design a survey instrument to determine the effectiveness of the information technology (IT) and information systems (IS) programs in teaching ethics and ethical behavior as it relates to the IT profession. As researchers and as teachers, we want to know if students learn what constitutes ethical behavior in the information technology and information system programs and understand the obligations of an information technology professional with regards to ethical behavior in the workplace. A survey was designed as a tool to assess the effectiveness of teaching ethics in

IT and IS curricula. The survey addresses ethical issues such as plagiarism, intellectual property rights, computer related issues, privacy concerns, and law and public policy issues. The survey was administered to classes in an IT degree program in Spring 2013. The development and results of the survey are presented.
