I have also been helping students (in math. Lab) learn math skills using computer software like My Mathlab, and in-home built computer programs; and tutoring students with any questions on calculus, pre calculus, college algebra, intermediate algebra, statistics etc. I assigned homework assignments and graded them, I prepared quizzes, and tests and graded them; took attendance; I replied to student emails; and did other required work assigned.

Programmer and Database administrator Oracle Corporation - several cities in USA June 1986 to December 2002 Oracle software development companies (several) I have worked as a permanent Oracle database administrator for Oracle Corporation; Precision Response Center; and Metromail companies. I have also worked as a consultant Oracle database administrator for Oracle Corporation; Robert Half; Technisource etc. I have been monitoring, maintaining, enhancing, migrating, performance tuning; backing up oracle databases. I had to go to client sites to do database administration work. Sometimes I did this work as a team member while other times I did this work as a single member team. Everything was done under a very strict security and in a very timely fashion.

Education M.S. degree in Mathematics in Mathematics College Of Science & Mathematics, University of South Carolina, Columbia - Columbia, SC Skills Teaching,

Communications, problem solving Certifications/Licenses M.S. degree in Mathematics Present I
have been teaching at several 2-year colleges and 4-year universities for the last over 8 years.
