

Web Developer Web Developer Web Developer - HCA Health Care Nashville, TN 6+ years of experience as a User Interface developer using Java script frameworks for developing single page and responsive web applications using Angular, ReactJS, HTML5, CSS3, Bootstrap, JavaScript/ES6. 4+ Years of experience in Angular 1.x, ReactJS, CSS3, HTML5 for developing MVC/MVVC applications. 2+ Years of experience in developing enterprise level applications using the ReactJS/Node.js Good experience in SQL, MySQL and NoSQL database concepts. Hands on Experience in Applications using MVC, Object Oriented (OO) JavaScript, JSON, and XML. Experience in React JS framework to develop the SPA. Experience in using React JS Components, Forms, Events, Keys, Router, plus Redux. Strong Knowledge in writing Angular 2/4 code for developing Single page applications (SPA), used several in built language core directives, expressions and modules. Working experience with Angular 2, creating custom directives, decorators, and services to interface with both restful and legacy network services also DOM applications. Extensive experience on working with various CSS/CSS3 features like CSS Background, CSS Layouts, CSS positioning, CSS text shadows, CSS box model, CSS table, Pseudo classes/elements and CSS behaviors. Hands on Experience in the development of web applications by using JavaScript/ES6 Features. Experience with Angular Services, Directives, Controllers, Forms and its Validations. Good understanding of Browser Object Model and Document Object Model functions. Experience with full software development life cycle, object-oriented programming and agile methodologies. Experience in Git version control & BitBucket. Having development experience with using complete SDLC and Scrum processes. Solid working experience in various IDE's: Visual Studio code, Sublime Text. Experience in Graphic and User Experience Design and Transforming Web/Graphic Designers static prototypes into hand-coded HTML, specifically emphasizing accuracy and efficiency with respect to maintaining cross-browser/cross-platform. Having development experience with using complete SDLC and Scrum processes. Comfortable working with Python/Django Framework in the design of web applications Extensive analytical, logical and programming skills, Self-Motivated and Team Player. Ability to grasp modern technologies and to apply them to build applications Effective

communication skills, time management and Team skills with an intention to work hard to meet project deadlines in a fast-paced environment. Good Knowledge in Programming Languages Such as C and Python. Knowledge on using Node modules, npm packages updating the versions using npm. Good Experience in understanding the flow of JIRA tickets. Involved in code reviews as well as in develop by using in both GIT and STASH. Experience in writing unit testing by using framework such as Jasmine, Karma. Experience in writing test case's and executing them with JEST and Enzyme. Experience working on software methodologies such as Agile/Scrum, Test Driven Development (TDD). Productivity Traits: Adaptable, Quick, Flexible, Multitasking, Determined & Team Player Capable of quickly learning and delivering solutions as an individual and as part of a team. Possess strong written and oral communication skills. Work Experience Web Developer HCA Health Care - Nashville, TN March 2018 to Present Responsibilities: Organized responsive pages using HTML5, CSS and accountable for making single-page and multi-page applications with React.js/Redux, Node.js/Express.js, MongoDB and REST API. Utilized React-Router module to turn the application into Single Page Application by implement routing with Route, Link, and Switch. Implemented stable React components and stand-alone functions to be added to any future pages. Maintained States in the Stores and dispatched the Actions using Redux and by using Redux-Thunk as a middleware to handle asynchronous events. Used Express.js with MongoDB by using Mongoose to write CRUD operations for retrieving and updating data. Configured Web pack to execute linters, magnifiers, pre/post-processors, tests, transpilers etc. based on build target. Architected and implement RestAPI interfaces using JavaScript and NodeJS by incorporating between Server side to Client Side Used Promises and Event emitter in Node.js to avoid callbacks and more readable code. Used JIRA as the bug tracking system to track and maintain the history of bugs/issues. Writing and testing of required individual components using Jest/Enzyme. Have work exposure on Continuous Integration and Continuous Delivery (CI/CD) tools such as Jenkins. Environment: HTML5, CSS, Bootstrap, JavaScript, React.js, Redux, React-Native, Node.js/Express.js, Webpack, MongoDB/Mongoose, REST API, Postman, Jest/Enzyme, JIRA, GIT, Visual Studio Code and Jenkins. Web Developer

Verizon Communications - Dallas, TX May 2017 to March 2018 Responsibilities: Implemented user interface guidelines and standards throughout the development and maintenance of the website using JavaScript, jQuery, CSS and HTML. Involved in write application level code to interact with APIs, Web Services using AJAX, JSON and XML. Utilized React for its efficient data flow architecture to create a lightweight and render efficient web app by implementing React container and presentational components (as Stateless and Functional components when applicable). Working with React-Router to turn application into Single Page Application. Working with Redux library for updating and maintaining the state by using middleware. Worked with Node.js for creation of robust and secure REST APIs. Extensively used HTTP methods integrating front-end to the back-end. Used AngularJS as a framework to create a Single Page Application (SPA) by utilizing AngularJS UI-Route for managing the State Transition and URL route. Worked Extensively with Angular CLI for creating components, Services, pipes, Directives, Pipes. Working in Cross-functional team to develop timely changes and meet the design requirements. Experience and developed test cases for controllers and services using Jasmine/Karma. Experience in writing and executing test cases with Jest/Enzyme. Environment: HTML5, CSS, Bootstrap 3, JavaScript, Node.js/Express.js, JSON, ReactJS, Redux, AngularJS, Jasmine/Karma, Jest/Enzyme, npm (Node Package Manager), Sublime, Restful APIs, GIT, Eclipse, Maven, Apache Tomcat, Putty, Chrome developer tools.

Web Developer Fisher Investments - San Jose, CA January 2016 to May 2017 Responsibilities: Designed dynamic and multi-browser compatible pages using HTML, CSS, Angular.js & JavaScript. Developer responsive interface using Bootstrap and SASS for CSS. Developing and designing SPA user interfaces in Angular.js. Defined new validations through AngularJS for the form field validation implemented through HTML5. Enhanced user experience by designing new web features using MVC Framework like Angular.js. Developed AJAX based web-based UI framework by utilizing jQuery library. Coded in AngularJS MVC framework to build Web application for the internal use of the organization. Made design recommendations towards the development of new code or re-use services, modules and components in order to reduce development time and resource. Maintained quality and

consistency by developing and implementing style guidelines. Environment: Angular JS, HTML5, CSS, Bootstrap, jQuery, JavaScript/Typescript, Ajax. JSON, GIT. Web Developer Mag Web Technologies - Hyderabad, Telangana March 2012 to June 2015 Responsibilities: Involved in Software Development Life Cycle (SDLC) from gathering user requirements to analysis, design, development, testing, deployment and production support. Designed the front-end applications UI web pages using web technologies like HTML, XML, CSS, and Bootstrap by provided responsive layout for application using CSS media queries. Worked on advanced properties like CSS Background, CSS Positioning, CSS Text, CSS Border, Pseudo classes, Pseudo elements etc. Used jQuery, JavaScript to present data to users in a user-friendly environment and by using them for client-side validation. Maintain, enhance, and recommend solutions that best suit the business and technology needs from UI standpoint. Responsible for developing, editing, publishing and managing content on the external Web pages and internal layouts. Fixed bugs using browser-based debugging tools and provided support services for the application. Environment: HTML, CSS, Bootstrap, JavaScript, jQuery, XML, JSON, Web Services. Education Master's in Science in Computer Science International Technological University Bachelor's in Technology in Computer Science and Technology Jawaharlal Nehru Technological University - Hyderabad, Telangana Skills Visual studio, Javascript, Bootstrap, Node.js, Reactjs, Redux, Json, Python, Angularjs, Eclipse, Java, jquery, MongoDB, Linux, Mysql, Pl/sql, Sql, MacOS, HTML, CSS3 Additional Information Technical Skills: Web Technologies HTML5, CSS, Bootstrap 3, jQuery, JSON JavaScript Libraries AngularJS / ReactJS /Redux Server Side Node.js, Express.js Task runners Gulp.js IDE's and Tools Eclipse, Visual Studio Code, Atom Programming Languages JavaScript, CSS, Python, Java Debugging Tools Chrome Developer Tools Databases PL/SQL, MySQL, MongoDB Operating Systems Windows, Linux & MacOS Methodologies Agile, Waterfall & SCRUM
