

Security Infrastructure Analyst Security Infrastructure Analyst Security Infrastructure Analyst -
Coca-Cola Southwest Beverages Apply my experience in information security to help enhance
processes, detect vulnerabilities and help enhance user awareness. Continue growing my
knowledge base of information security by learning new technologies and methodologies. Work
Experience Security Infrastructure Analyst Coca-Cola Southwest Beverages - Dallas, TX February
2018 to Present Cyber Security ? Created a multi-phased plan for integration of AV consoles
(Lookout, Better Mobile and Symantec) ? Participated in the develop firewall rules ? Tested all
firewall rules with internal teams prior to deploying applications into production ? Deployed antivirus
applications to pilot group, monitored, identified and remedied exposures ? Assessed security
vulnerabilities based on CONA Security Standards and remediated exposures by coordinating with
all relevant internal and external parties ? Developed a cyber-attack remediation process for mobile
devices ? Analyzed findings to determine areas of risk exposure and potential process
improvement. ? Coordinated with internal and external teams to identify technology communication
requirements for new acquisitions ? Planned and executed multi-factor authentication campaign by
raising user awareness, coordinating with management, adhering to deployment timeline,
communication with stakeholders of encountered issues, final deployment to users, verification of
full integration, support and monitoring of user activity ? Coordinated the phishing campaign to
create user awareness throughout the company Physical Security ? Created a Request for
Proposal for the sustainment and maintenance of all security assets at the facilities ? Managed all
communication with prospective security vendors and addressed proposed services ? Ranked all
bids and offered a recommendation for awarding ? Assigned to be the Project Manager over the
Security Sustainment Project ? Coordinated with internal teams to determine physical security
equipment necessary at a new facility ? Researched and identified a cloud solution for issues
experienced with physical servers and analog cameras ? Identified a pilot facility, integrated cloud
solution and monitored for viability of companywide deployment ? Handled and resolved all facility
physical security issues reported through Service-Now ? Coordinated with internal teams to assign
physical security equipment to appropriate network segments IT Auditor Sally Beauty Holdings -

Denton, TX October 2015 to November 2017 Obtained an understanding of controls, risks, and guidance prior to commencing audits ? Participated, coordinated, led, and documented initial process control owner meetings ? Perform walkthroughs of process narrative and updated accordingly ? Determined a statistical sample size and performed control testing ? Review security values and powerful access across all domains on the network ? Reviewed IBM iSeries system security values and powerful access to systems ? Validated all users have the appropriate access to Sally Beauty Holdings Systems ? Validated successful restores and backups for iSeries systems ? Audited mechanisms for controlling code changes to production systems ? Verified incidents that are raised internally have the appropriate criteria ? Validated financially significant projects met requirements before deploying into production ? Reverse engineered information generated reports from IBM AS400 each time there was a change in code to ensure accuracy of the reports ? Audited the transition of code from development to production - Change Management Audit ? Audited security operations process used to scan company assets - Vulnerability Management Merchandiser Coca-Cola Company - Amarillo, TX January 2014 to May 2015 Independently worked to achieve daily goals assigned by management ? Successfully restocked stores with required inventory ? Maintained store displays with product to maximize customer appeal ? Continuous customer service while upholding the highest degree of company values ? Invoice completion
