

SOFTWARE DEVELOPER SOFTWARE DEVELOPER WEB SOFTWARE DEVELOPER

Charlottesville, VA Web developer with 10+ years of front and back end development experience.

Mostly .Net, C#, JavaScript and SQL. I enjoy learning new technologies and patterns. Currently preparing to take the Microsoft MTA JavaScript Certification Exam (I've passed the authorized practice exam several times). I'm also training on mobile app design using Xamarin and React Native. I also have formal graphic design training and plenty of UI experience. In my spare time, I enjoy working out and volunteering. Authorized to work in the US for any employer Work Experience

SOFTWARE DEVELOPER Silverchair - Charlottesville, VA November 2014 to July 2019 Worked on top selling Scrum team developing large, data rich websites and content tools for big name STEM publishers.

Supported multiple clients, launched over several years, using different programming languages, patterns and hosts. Required broad skill set and strong analytical abilities in order to shift quickly between divergent systems and a large, evolving code base.

Required significant client side programming, UI skills and the ability to integrate with a variety of third party vendors. Required strong interpersonal skills in order to solve problems across multiple teams modifying shared code in a fast paced environment. WEB PROGRAMMER, CONTRACT

CONSULTANT Fisher/Federated Auto - Staunton, VA March 2014 to November 2014 Created custom business to business applications for a complex data set (auto parts, and the associated meta-data, for all major international automobiles, going back several decades). Supported and
