

Senior Engineer, Front- End Senior Engineer, Front-End Senior Engineer, Front- End - Brady Corporation Thiensville, WI Work Experience Senior Engineer, Front- End Brady Corporation - Glendale, WI October 2016 to Present Worked on a team for 3 years on a project BradyConnect (<https://account.bradyid.com/>) My contribution was designing the Bootstrap/SASS/Web pack build. As well as site architecture that was easy for other backend developers to use. Name spacing files, adding post processes to web pack build, and accessibility requirements. I worked in AngularJS 1.8 for most of that time. I consumed Azure Micro Services API's for the project. Making requests and pull down data to angular pages. I also managed the Bootstrap upgrade from 3 to 4. I'm currently working on a mobile project in Xamarin, with a C# backend. AngularJS 1.8, Ionic .Net C#, Xamarin, Microsoft Hockey app Framework: Webpack, Bootstrap 4 Front- End Programmer Summits - Milwaukee, WI January 2016 to September 2016 Worked on Salesforce projects for healthcare site, and an Ohio university. For BMC (<https://www.bmc.com/>) internal site, I worked on a Jive upgrade from version 7 to 8. Updates for Milwaukee Tool site: <https://www.7summitsinc.com/case-studies/milwaukee-tool/> Using NPM and Gulp builds, preprocessors with Less. Jive CMS Salesforce CMS Framework: NPM, Gulp, LESS, SASS Front- End Programmer DCI Artform - Milwaukee, WI October 2014 to January 2016 Built out the Subaru Badge of Ownership site (<https://www.badgeofownership.com/>) Also worked on the Subaru Ambassador site (<https://www.subaruambassador.com/>) Primary focus was on responsive design and layout. Subaru - Badge of Ownership Responsive Design: Bootstrap 3.0, LESS Framework: ASP.Net MVC, SVN Senior Programmer Kohl's Corporation - Menomonee Falls, WI August 2010 to September 2013 Worked on Registry Project, Wedding Registry Created for Mobile, in a Java environment. A/B testing using Adobe analytics software, Javascript injection to move elements, hide and show. Front End Layout - JQuery, Javascript, CSS3, HTML5, Sass, Front- End Developer/Designer Marcus Corporation-Hotels Division - Milwaukee, WI August 2004 to August 2010 Small team that did everything, from handling DNS setup, Database, Social Media, Analytics, Designs, Marketing Designed & Developed over 50 websites Database driven applications created to manages sites Social media, Google analytics, SEO & monetary ads Education
