

Front End Developer Front End Developer Front End Developer Gastonia, NC Work Experience
Front End Developer ACCELERANCE July 2016 to July 2019 Worked to create apps using Vue.js
and other technologies to unify data from several SAAS sources to create a one stop dashboard for
data about the hours worked on various engagements. ? Wrote Gulp recipes to cut development
time in half with techniques like hot loading and API calls to develop locally using VSCode. ?
Created a Glassdoor-like "company profile" system to showcase Accelerance's partner network
including video, animated charts and graphs, and dynamically loaded data. ? Helped to manage an
offshore development team in order to create an Angular/PHP application. ? Coded and published
entire client facing website alone. Worked with an external SEO firm to increase search engine
visibility. ? Worked alongside marketing to create interactive maps that pulled data from
Accelerance data about partners, geographical info, and more. ? Worked in Accelerance's CMS to
increase contact record hygiene, automation, and better recordkeeping. Web Designer And Content
Manager COOLCOYOTES INTERACTIVE August 2008 to December 2012 Managed a customer
support system for content management (Kayako) of over 200 clients. ? Utilized .NET based CMS
(DotNetNuke) to maintain websites daily using HTML and CSS. ? Created mockups and
wireframes to provide initial UX concept and design for custom websites. ? Designed basic content
using Photoshop and Illustrator to collaborate with different teams within the company. Education
University of North Carolina at Charlotte - Charlotte, NC 2012 to 2013 University of North Carolina at
Wilmington - Wilmington, NC 2011 to 2012 Links <https://github.com/grantfoster/hubspot-gulp>
