

Java/ Python Developer Java/Python Developer Java/ Python Developer - Pearson New York, NY

Strong programming skills in Core Java, Servlets, JSP, JSF, Spring, JPA, Hibernate. Strong
programming skills in UI web development JavaScript, JQuery, HTML, CSS, Angular. Strong
programming skills with Python Good programming skills of ReST Services. Strong
programming skills in Web application development using Java/J2EE technologies. Strong
Experience working with Apache Tomcat. Strong Experience working with Design Patterns.

Experience in automated tests using Selenium, Junit, mockito, and cobertura Experience working
with Docker Experience working with Microservices Experience working with Django, Flask,
Celery and SQLAlchemy Experience with continuous integration with Jenkins, GIT, Maven, Sonar,
Ansible and Puppet. Experience with Quality Assurance Experience working with SVN, CVS and
GIT Version Control systems Experience working with Oracle, MySQL and Postgres Relational
database management systems Experience working with MongoDB Experience working with
Scrum Useful Links Github Url: <https://github.com/daveksp> Jenkins:

<http://142.4.213.86/jenkins> Jenkins is a continuous integration tool. It is triggered by a push to a git
repository and then run tests, generate documentation and deploy to the server. Here you'll find all
the links for the other tools in only one place. User: guest Password: guest Sonar:
<http://142.4.213.86/sonar> SonarQube is a tool for performing code analysis about several metrics
in the project. It has a web interface to display the result with charts and other useful resources.

New Relic: <https://rpm.newrelic.com/accounts/1375617/applications> Application monitoring Tool
User: bouthpinheiro@gmail.com Password: teste123# Work Experience Java/ Python Developer
Pearson - BR August 2015 to Present Development of Micro Services, Web Applications and UI
creation/maintanance using Python, Flask, Mock, Rest, Hateoas, Java, HTML, CSS, Angular and
Jquery. Configure and Manage Continuous Integration environment using Jenkins and Sonar.

Automate Tests using Selenium Web Driver and JScover. DevOps suport using Docker and
Ansible. Java/ Python Developer Conquest One - BR May 2014 to August 2015 Development of
Java/ Python applications (web and desktop) using Junit, Unittests, Mocks, Sql server, Spring, JPA,
Django and Angular. DevOps suport using Docker. Configure and Manage Continuous

Integration environment using Jenkins and Sonar. Contact: Denise Martins Phone: +1 (415) 738-2085 Java Developer Telem tica Sistemas Inteligentes - BR October 2012 to April 2014 Development of Java applications (Web and Desktop) making hardware and mainframe integrations using Cics protocol, Maven, Spring, JSF, Primefaces, Postgres and JPA. Configure and Manage Continuous Integration environment using Jenkins and Sonar. Contact: Alex Siqueira Java/ Python Developer Evandro Chagas Institute - BR January 2012 to June 2012 Pipeline creation for handling biologic data, scripts creation intended to perform proteins modeling as also web application development for stuff management and biologic research process documentation. Technologies used were Python, Java, JSF, JPA, Maven and JQuery. Researcher/ Python-Java Developer DNA Polymorphism Laboratory - Federal University Of Par - BR September 2010 to January 2012 Location: Bel m - Brazil Period: 09/2010 - 01/2012 Development of Desktop Application for handling Biologic Data (Genomes) for bioinformatics purposes such as micro RNA location and gene clusters characterization. Java/PHP Developer Solon Tecnologia - BR April 2008 to January 2012 Layout Creation and Web application development using HTML, JQuery, CSS, PHP, Java, Maven, and Jpa. Java Developer E-BIZ Solutions - S o Paulo, SP 2011 to 2011 Location: S o Paulo - Brazil Period: 06/2012 - 10/2012 Development of web applications and testing using Java, Junit, Mockito, Maven, H2 database, Oracle, JSF, Primefaces, Spring, and JPA. Kerleston Bom 2011 to 2011 5531-8288 Researcher Fabsoft - BR March 2007 to December 2007 Research and development of applications using new Technologies, such as DWR, JSF and integration between java and Adobe Flash with webservice. Php Developer, Web Designer Tecnodata - BR February 2005 to January 2007 Layout creation and Web application development using CSS, PHP, JQuery, Ajax and database. Education Master in Bioinformatic Federal University 2010 to 2014 Master in Bioinformatics University of Minho 2009 to 2010 Bachelor's in Computer Science University Center 2005 to 2009
