

Network Administrator Network Administrator Network Administrator - Crones LLC Renton, WA
Work Experience Network Administrator Crones LLC - Kent, WA October 2013 to Present
Responsibilities Database design & Management Cloud Management & Security System Support
(Hardware/Software) Remote Support (Software Only) OSI Modeling Support: AutoCad, Topcon,
SMI, Total Station NBX/PBX Active Directory 24x7 support DNS, VPN, SSH Java, SQL, Access,
CSS, HTML, Python, Linux/Unix Windows 7, 8, 10 iOS, OSX, Server 08, Android
Accomplishments Increased overall performance and productivity. Re wired aged 10/100 Network
scheme, replaced it with 10/100/1000 including managed switches to help with redundancy of
slower networked devices. Increased revenue by re designing a custom installation package
previously designed to run on x86 builds. The program " Project Tracker Pro" is now capable of
running on 64 bit architecture. Program currently sales now for around \$800 per seat.
Implemented and designed low cost Enterprise level Cloud services, including upgradable online
storage capabilities. Education Diploma University of Phoenix - Seattle, WA 2013 to 2015
Networking West Seattle High School University of Pheonix - Seattle, WA Skills IOS (4 years),
LINUX (4 years), VPN (4 years), WINDOWS 7 (4 years), CUSTOMER SERVICE (Less than 1 year),
Cisco, Vmware, System Administrator, Ccna Additional Information Summary of skills: Windows
7, 8, 10/iOS/Server 2008/Linux/Exchange MS Office/SharePoint Hardware and Software
upgrades TCP/IPv4/IPV6/LAN/Wan/Http/Ftp/Vpn Web Design Troubleshooting /Resolve
System Management/Design/DR Planning & Implementation Customer service/ grievances
