

Web Developer Web Developer Software Engineer | Web Developer Austin, TX As an endlessly curious web developer and a highly analytical critical thinker I love to seek out the source of a problem to find a wholistically-envisioned solution. Authorized to work in the US for any employer

Work Experience Web Developer General Assembly - Austin, TX April 2019 to July 2019 Built creative and engaging full stack applications using key languages in a full-time software engineering immersive program. Worked on projects independently and in groups focusing on cutting edge industry standards and best practices. Client Experience Agent Stitch Fix - Austin, TX April 2018 to April 2019 While answering about 150 emails from our clients each day, I enjoyed helping them find the things they loved in our product, and supported them with empathy and thoughtful correspondence when they didn't. Legal Videographer Able Legal Video - Jacksonville, FL January 2015 to August 2017 Filmed several hundred depositions, site inspections, trials, medical exams, and sworn statements on behalf of law firms, attorneys, and court reporting agencies. Maintained relationships and correspondence with our clients to ensure they were getting the best experience possible out of our services.
