

ASP.Net Web Developer ASP.Net Web Developer ASP.Net Web Developer - Harrell's LLC  
Lakeland, FL Work Experience ASP.Net Web Developer Harrell's LLC - Lakeland, FL October 2017  
to Present Build web features for office use and daily plant operation processes. Leveraging  
ASP.Net API to build data driven modules (SOA) that include scrolling/pagination. Manage rich  
content display for cross platforms using bootstrap and Javascript libraries such as jQuery UI and  
AngularJS. Formulate complex queries such as joins or union using dapper or entity framework  
and manipulate the outcome using LINQ to Query. Collaborate with stakeholders to help groom  
backlog and maintain defects tracking. .Net Software Developer HealthFirst - Lake Mary, FL  
December 2016 to October 2017 Created automated processes using OpenSpan. Created  
OpenSpan components using C#. Applied separation concerns techniques such as removing  
DAL(data access layer) from the automation process. Applied Dependency Injections techniques  
to adjudicate claims from different data source (claim coming from database or a service).  
Assumed QA position and used ALM for testing and defects tracking. Used black/white box testing  
as QA tester. Participated in agile ceremonies (backlog grooming or coordinating with BAs). PHP  
Web Developer Internship Rustik Image Photography - Savannah, GA January 2016 to May 2016  
Modified the CMS OpenCart to fit the business needs of Rustik Image. Built custom plugins such  
as email notification on purchases and picture size manipulations. Built modules to interact with  
Square API suite for online payments. Modified the UI of OpenCart using JQuery and bootstrap.  
iOS Developer Armstrong State University - Savannah, GA October 2015 to December 2015 Built  
an iOS app that can capture user's current location so a notification can be attached to that location  
and alert the user when closing to that location. Used Google API to provide location data and  
Alamo Fire for API consumption. Used SQL lite for temporary storage of the locations and  
notifications. Java Web Developer Armstrong State University - Savannah, GA May 2014 to  
November 2015 Built a Java Web app that allow users to formulate test questions along with  
possible answers. Used PrimeFaces for UI and controller modules. Used MongoDB for data  
storage. Education Bachelor in Information Technology in Information Technology Armstrong State  
University - Savannah, GA 2012 to 2016 Miami Edison Sr. High School - Miami, FL June 2001 Skills
