Marine Corps Achievement Medal 2019-05 For performing above and beyond all expectations as a Network Chief in support of Weapons and Tactics Instructor course 2-19. Assumed a billet reserved for at least two pay grades above his own, and lead a team of 17 Network Administrators providing secure, and reliable LAN and WAN network connectivity to over 800 users spanning across 12 individual locations. Letter of Appreciation 2016-02 Department of the Navy, Pentagon Director, Strategic Spectrum Policy "It is with great pleasure that I convey my sincere appreciation for your support in the collaboration and testing of the Marine Corps tactical radio relay (TRR). Your technical expertise was instrumental to the overall success in the strategic effort to characterize co-channel interference between the Marine Corps TRR and Long Term Evolution (LTE) cellular operations. Your tireless efforts contributed to strategies that will lead to the best methods to employ reliable and secure communications in evolving complex electromagnetic environments. Your diligence and keen sense of responsibility in the performance of duties reflected great credit upon yourself, and is in keeping within the highest traditions of the United States Armed Forces." Assessments Technical Support Expert July 2019 Measures a candidate's ability to apply protocols to identify errors and solutions in order to maintain system function.
