Project Manager Pinnacle Marketing Group - Vancouver, WA May 2007 to January 2009 Vendor for both Microsoft Corporation and Sony Ericsson - Wireless Marketing Services (Microsoft 15 months / Sony Ericsson 5 months)

Microsoft Project: Empower the EMSS Managed multiply projects for the Enterprise Mobility Solutions Specialists (EMSS) department. Managed and executed marketing programs and initiatives including device seeding, branded merchandise, and targeted events.

Microsoft Project: Vertical Campaign Kits Managed the development of marketing campaign kits for two vertical markets; Healthcare and Financial Services. The objective of each kit was to create an end-to-end campaign that would enable the Mobile Operator and Value Added Reseller (VAR) partners to host trainings, meetings, events, and various marketing initiatives to help showcase the power of Windows Mobile.

Microsoft Project: Industry Event and Booth Management Communicated and coordinated with Microsoft stakeholders to determine marketing and management needs for selected events. Managed event budgets, registration, booth logistics, and the collateral and merchandise needs for the events.

Sony Ericsson Project: Product Marketing Launch Process Communicated and coordinated the new product launch process for mobile devices with Sony Ericsson's Marketing department. Managed product briefs, region decks, sell-in decks, collateral, and training decks for both the United States and Canada.

Sony Ericsson Project: Competitor Analysis Managed the development of a competitor analysis deck that was created on monthly basis for Sony Ericsson stakeholders. This deck included an executive summary of the mobile carriers, market and promotional activity, competitor analysis and overview, phone carrier SKU analysis, and new product analysis for upcoming mobile devices.
