

Software Engineer Software Engineer Software Engineer Memphis, TN Authorized to work in the US for any employer Work Experience Software Engineer SAIC - Memphis, TN January 2016 to Present Built a highly secured US Navy software application to route sensitive files between sailors for review and signature. Currently in use by every sailor in the Navy. Digitized the USN retirement and separation process, increasing security through digital signatures, and decreasing wait time from ~3 weeks to ten minutes. Designed and Developed a large scale application for use with the promotion system of the USN, which every sailor goes through yearly. Volunteered as meeting leader and typist for all Scrum ceremonies, decreasing meeting times by 20% over the last two years. Earned employee of the month only two months after being hired. App Developer Magnolia Montessori School - Oxford, MS February 2015 to September 2015 Designed and developed a student sign-in and sign-out app for pc, tablet, and phone. Created a database and web page frontend to store and access vital information. Used responsive design for functionality with tablets, phones, and computers. Demonstrated and communicated how to use the app to the faculty. Installed the app, confirmed it ran properly, and helped troubleshoot further issues. Education Bachelor's in Computer Science School of Engineering August 2011 to May 2015 Skills Javascript, MySQL, Android, HTML 5, CSS, jQuery, Angular, Graphic Design, AngularJS, C#, Scrum, Agile, User Experience Design, Typescript, Java, SQL, Test Driven Design, TFS, Visual Studio Links <http://linkedin.com/in/parmley> Certifications/Licenses CompTIA Security+ December 2015 to December 2021 <http://verify.CompTIA.org/> Credential ID 641H6WZEBP41K8V1 Secret Clearance January 2016 to January 2026
