

IT SECURITY ANALYST IT SECURITY ANALYST IT SECURITY ANALYST - ASSOCIATES
Stafford, VA Work Experience IT SECURITY ANALYST ASSOCIATES - Silver Spring, MD
January 2019 to Present Assessed program and security controls using Organization IT Security
Policy Handbook and NIST Special Publications to provide information necessary to determine their
overall effectiveness. * Developed and maintained SA&A documents including System Security
Plans, Contingency plans, Risk Assessment Reports and evaluated existing documents and their
accuracy. * Prepare and review SA&A package for information systems. * Participated in the Audit
Remediation from OIG Financial Audit of the Agency Financial Applications. NETWORK
ENGINEER Trinitech consulting - Bethesda, MD January 2015 to January 2019 * Manage and
support LAN and WAN network devices: Cisco Catalyst 2950, 2960, 3560, 3750, 4500, 6509,
Nexus 9000 series. * Switches and Routers IOS update. * Implement approved network changes in
accordance with applicable procedures. * Manage and support remote and wireless access: Cisco
LWAP; Wireless LAN Controller. * Network monitoring with Monolith, ServiceNow, Opsware,
Remedy. NETWORK ENGINEER Trinitech consulting - Baltimore, MD June 2015 to December
2015 * Manage and support LAN and WAN network devices: Cisco Catalyst 2950, 2960, 3560,
3750, 4500, 6509 and 6513 switches; VLAN configuration, 802.1q and ISL trucking, Ether Channel,
and Spanning-Tree protocol. * Manage and support Internet access and security appliances: Cisco
Pix 510 and ASA 5510 Firewalls. * Switches and Routers IOS update. * Implement approved
network changes in accordance with applicable procedures. * Manage and support remote and
wireless access: Cisco LWAP; 5508 WLC. * Provides technical expertise in configuration and
troubleshooting of various IP routing protocols including OSPF, EIGRP, and BGP. * Create,
publish, and maintain up to date and accurate network documentation and diagrams. NETWORK
ENGINEER MerchantSystemLaurel November 2014 to June 2015 * Manage and support LAN and
WAN network devices: Cisco Catalyst 3550, 3560, 3750, 4500, 6509 and 6513 switches; VLAN
configuration, 802.1q and ISL trucking, Ether Channel, and Spanning-Tree protocol. * Manage and
support Internet access and security appliances: Cisco Pix 510 and ASA 5510 Firewalls. * Manage
and support remote and wireless access: Cisco LWAP; 5508 WLC. * Switches and Routers IOS

update. * Implement approved network changes in accordance with applicable procedures. * Test and evaluate network systems to eliminate problems and make improvements. * Assist other groups in troubleshooting problems that require packet analysis or performance review. * Create, publish, and maintain up to date and accurate network documentation and diagrams.

NETWORK ENGINEER St Agnes Hospital - Baltimore, MD 2013 to 2014

- * Lead the installation and configuration of corporate wide rollout of the Cisco Catalyst 3550, 3560, 3750, 4500, and 6509 switches including VLAN configuration, 802.1q and ISL trucking, Ether Channel, and Spanning-Tree protocol.
- * Monitored the Frame Relay network and coordinated new circuit installations.
- * Provides technical expertise in configuration and troubleshooting of various IP routing protocols including OSPF, EIGRP, and BGP.
- * Managed network security processes using PIX and ASA firewalls.
- * Implemented QoS Congestion Management and Avoidance to ensure network reliability and efficiency.
- * Managed network IP access via Dynamic Host Configuration Protocol (DHCP).
- * Maintained, upgraded, configured, and installed Cisco Pix 510 and ASA 5510 Firewalls from the CLI and ASDM.
- * Monitored LAN/WAN and device activities utilizing Cisco Works, SNMP, HP Open View.
- * Assisted in troubleshooting complex layer 1, 2 and 3 connectivity using Wire Shark protocol analyzer.
- * Prepared technical documentation of configurations, processes, procedures, systems and locations.
- * Coordinated all end-user projects as assigned.
- * Developed standard operating procedure (SOP) documentation.
- * Trained/cross trained fellow employees on network operations and usage.
- * Isolated network problems and initiated solutions for corrective action for multi-vendor LAN/WAN communication platforms.
- * 24/7 on call support provided on a bi-weekly rotational basis.

Education B.S. in Information Systems in Information Systems University of Douala June 1999
