With extensive experience in iOS and Java development, Faraaz has faithfully worked with industry experts and high-level executives to accomplish goals beyond reach. Authorized to work in the US for any employer

Work Experience

iOS Developer SpotOn.Pet - Brooklyn, NY March 2018 to Present SpotOn is a pet-centric ride-hailing company which allows pet parents to take rides with their furry companions. Devised and built an iOS ride-sharing application in Swift. Designed UI and used storyboards to build the front-end of the application. Utilized Apple Maps native framework to determine prices and efficient routes for drivers. Integrated MongoDB for data storage and Firebase for backend management. Worked with CTO to determine and set team objectives to reach company goals.

Java Developer RWB Capital - Princeton, NJ July 2017 to February 2018 RWB Capital is a financial investment company that helps others accumulate wealth by investing into real estate. Worked with team to develop software in Java to manage real estate properties. Responsible for building dashboard that summarizes financial property data. Communicated with MySQL database to gather and analyze financial data. Utilized Jira, Bitbucket, and Slack to effectively communicate with team and manage project.

iOS Developer Embecta, Inc. - Pickering, ON July 2016 to July 2017 Embecta is a Canadian company owning investments in a portfolio of subsidiaries. Worked with team to design, build, and ship iOS application in Swift that allows high-level management to manage financial portfolios via E*trade API. Integrated MySQL and AWS for data management and user authentication. Used Apple Push Notification service to notify users of new financial data. Used agile development methods to efficiently and rapidly develop the application.
