

SQL DEVELOPER SQL DEVELOPER SQL DEVELOPER - HUMANA, TX Houston, TX 3+ years of experience as Software Developer with extensive experience of analytical techniques ; design, development, maintenance and support of Java/J2EE applications.. Sound knowledge and working experience in Agile and waterfall methodology. Experience in writing SQL queries and optimizing the queries in SQL Server. Knowledge and work experience in RDBMS concepts, Views, Triggers, Stored Procedures, Indexes, and Constraints. Performed data analysis and data profiling using SQL on various sources systems including SQL Server. Extensive knowledge and experience in producing tables, reports, graphs and listings using various procedures and handling large databases to perform data manipulations. Hands on experience in writing T - SQL queries, procedures, views, indexes and worked on SQL query Optimization and tuning. Developed and maintaining Cascading, Drill-down, Drill-through, dashboards and parameterized Reports using SSRS. Good Knowledge in Java, J2EE technologies such as JDBC, Servlets, JSP, Struts, JSF, EJB, Web Services, JMS, XML, XSD, XSL and JNDI, AJAX. Extensively worked on MS Office Tools (EXCEL, WORD, VISIO, POWERPOINT and ACCESS). Developed different Web components such as JSPs, Servlets, Custom Tag Handlers and business components such as Web Services. Developed dynamic web applications and Web Services using RAD and Eclipse. Good Knowledge of Web development technologies such as HTML, XML, DHTML, CSS and Visual Studio. Highly organized with the ability to manage multiple projects and meet deadlines. A team player with excellent interpersonal, communication and presentation skills. Work Experience SQL DEVELOPER HUMANA, TX May 2018 to Present Roles and Responsibilities: Working as SQL Server Analyst using SQL Server for CMH Project. Developing and Management Database for Collateral Management and Hedging. Writing Triggers, Stored Procedures, Functions, define User Defined Data Types, and Create and maintain physical structures. Create / Manage Table Indexes, Query Tuning, Performance Tuning, Deadlock Management. Defect tracking and closing by using HP Quality Center. Used JSP with Struts Framework for developing User Interfaces. Used the OOPS concepts of Exception Handling, multi-threading. Wrote Core Java classes, JSP and HTML files. Implement Security, Roles, Logins and Permissions. Extract-Transform-Load

data into SQL Server Normalized database from various sources. Wrote T-SQL Queries and procedures to generate DML Scripts that modified database objects dynamically based on inputs. Worked in Active passive cluster environment. Used log shipping for synchronization of databases. Update statistics, database integrity check and Backup operations. SOFTWARE(SQL) DEVELOPER LAMDA - IN May 2010 to December 2013 Roles and Responsibilities: Designed and coded application components in an Agile environment utilizing a test-driven development and SDET approach and pair-programming. Developed the application using spring framework that leverages model view layer architecture, also configured Dependency Injection. Used Hibernate ORM tools which automate the mapping between SQL databases and objects in Java. Designed the Front-end screen using JSP, Servlets, XHTML and JavaScript. Extensively developed Servlets and JDBC calls for accessing data from database. Developed Database connection methods using JDBC to connect SQL Database. Gathering and analysing user requirements. Developed the Automation Test Scripts Participated in discussions to finalize the architecture of the application and prepared detailed design documents using Java Class and Web Sequence Diagrams. Designed database schema on SQL Server and Written JavaBeans and Action classes to build project modules. Use Eclipse as IDE tool to develop the application and JIRA for bug and issue tracking and Used Maven for building and managing dependencies of the application. Education BACHELORS IN COMPUTER SCIENCE in COMPUTER SCIENCE TEXAS SOUTHERN UNIVERSITY Skills Database, Ms sql server, Sql server, Pl/sql, Sql Additional Information SKILLS SQL Server Tools: SQL Server Management Studio, SQL Server Business Intelligence Development Studio, Microsoft Visual Studio ETL Tools: SSIS, SSRS, SSAS Database: MS SQL Server Languages: SQL, PL/SQL, T-SQL Web Technologies: HTML5, CSS3, XML, DHTML Tools: Eclipse, MS Office, JIRA, GitHub HP ALM- quality center, Index Tuning Wizard, Database Tuning Advisor, Profiler, Performance Monitor, Activity Monitor, Event Viewer Methodologies: SDLC, Agile, Waterfall, Scrum Operating System: Windows 7/8/10, Linux
