

Full stack Java developer Full stack Java developer Full stack Java developer Silver Spring, MD
Authorized to work in the US for any employer Work Experience Full stack Java developer Freddie
Mac, Virginia, The United States of America August 2018 to Present Java Web services
development using Spring Boot, Java and Angular 6 Consuming REST services Spring Cloud
and microservices o Technologies and tools: Java, REST API services, Git, Eclipse, Jenkins,
WebLogic, JSON, Postman, Angular 6, Spring Cloud, microservices, AWS, Python, Oracle, Sybase,
Shell Script Full stack Java Web Developer Montgomery College, Maryland, The United States of
America January 2018 to July 2018 Java Web development using Spring Boot, Java and front-end
technologies Building web services using Spring Boot Designed spring based RESTful web
services to be consumed by customers Used Spring Security o Technologies and tools: Spring
Boot, Java, JUnit, Mockito, Thymeleaf, HTML, CSS, Bootstrap, REST API services, MYSQL, H2,
Spring data JPA, Hibernate, Git, Bitbucket, JMS, IntelliJ IDEA, Eclipse, JSON, Spring Security,
Postman Web Developer Colson Europe B.V October 2016 to December 2017 Implemented
business logic of web applications using Java programming language, Spring framework
Supported functional requirement documentation Unit Testing of Application using JUnit RESTful
service design and consumption MySQL Database Involved in tracking and resolving defects
reported by Quality Assurance Team Supported production related issues, maintenance requests,
data verification on production environment o Technologies and tools: Spring MVC, Java 8, JSP,
JUnit, XML, Bootstrap, REST API services, MySQL, JPA, Hibernate, JIRA, GIT, Jenkins, JMS,
Kafka, RabbitMQ, IntelliJ IDEA, Eclipse, JSON, Spring Security, PMD Fullstack Software Developer
Telia Company - Helsinki, FI May 2015 to September 2016 Developed and reviewed deliverables
including requirement, design and test documents Developed web applications using J2EE
Developed web apps and adding API endpoints Restful API communication to access vendor
solutions Supported production processing and fulfillment with any production issues working
closely with customers Software-defined Networking implementation in agile software
development environment Worked with agile software development team with two weeks sprints to
get applications tested and ready for production as well Utilized test automation - Python o

Technologies and tools: Spring MVC, Java, JSP, JUnit, XML, Bootstrap, REST API services, MySQL, JPA, Hibernate, JIRA, GIT, Bamboo, SonarQube, Kafka, ActiveMQ, Node.js, Angular, JavaScript, SOAP, SSH, Python, PostgreSQL, Oracle, Microsoft SQL Server, Linux Web Developer

Aalto University - Espoo, FI January 2010 to May 2015 Involved in system requirement gathering, analysis, design, implementation and deployment Participated in and controlled the Software Development Life Cycle Web Development using LAMP stack with PHP Designed the front-end using CSS and HTML Database administration Bash shell scripting

Technologies and tools CSS, HTML, MySQL, Visual Studio, JavaScript, jQuery, PHP, Linux, Apache Education M.S Computer in Networking Aalto University - Espoo, FI Computer Science and IT Helsinki Metropolia University of Applied Science - Espoo, FI Skills Java, Spring, Jms, Angular Additional Information

TECHNICAL KNOWLEDGE: Operating Systems Windows, Windows Servers 2008r2/2012r2, UNIX(Linux/GNU) Programming Languages and other Java, Python, C, PHP, JSON, XML, JavaScript, Thymeleaf, jQuery, HTML, CSS, Angular, technologies Node.js, Bootstrap Spring Framework (Spring Core, Spring Web, Spring Test, SPRING DAO, Spring Boot, Java Frameworks Spring Data JPA, Spring MVC, Spring Security), JUnit, Mockito Version Control and CI Git, Bitbucket, Jenkins, Bamboo Messaging Kafka, RabbitMQ, ActiveMQ, JMS Databases MySQL, PostgreSQL, Oracle, Microsoft SQL Server Content Management WordPress Object Oriented Design Tools MS Visio, UML Integrated Development IntelliJ IDEA, Eclipse, NetBeans, Visual Studio, STS, SonarQube Platform/Tools Cisco Curriculum (CCNA and CCNP), IPv4, IPv6, RIP, OSPF, BGP, RTP, MPLS, RTP, Networking Technologies 802.11 WLAN, SNMP, Network Security (Monitoring, Intrusion detection), Cisco routers, Tellabs routers, Juniper routers SVN, Simulation tools (Packet Tracer, ns-2), Configuration Management Tools (CVS & Other IBM Rational ClearCase, MAPLE), MATLAB, Assembler for a Microcontroller
