Additional Information Cover Letter: Trason J. Carver 834 E 900 S Provo, UT 84606 (806)-340-4210 trasoncarver@gmail.com Greetings Hiring Committee, My ambition is to find a position that allows me to apply my talents and skills in the information security industry. I invite any organization that will assist me in pursuit of this dream to consider my abilities for employment. With about two years of solid technical support and security analysis experience, including a bachelor s degree in information technology, you would be guaranteed to find in me a qualified candidate. Over the years I have gained an understanding of how to identify common attack vectors such as: SQL injection, cross site scripting, path traversal, predictable resource location, to name a few. I am proficient with industry standard SIEM technologies such as Splunk and RSA Security Analytics, and am currently certified to use Splunk Enterprise. Using the Splunk search language(SPL) and its applications, I have been able to create dashboards and reports that can help make better business decisions and mitigate risk. In addition, I have assisted in the security of account information of world leaders in one of the largest non-profit organization on the globe. I take pride in protecting the institutions and organizations I am apart of and always strive to go the extra mile. I have a unique determination to work hard among my generation, and a tenacious mentality to overcome any challenge. I thrive in team environments, and find myself a proficient communicator both individually and publicly. I am passionate and driven in the cause of information security. It is my career goal to apply my information security skills in a way that will benefit my employer. I look forward to meeting with you to further discuss my qualifications, and goals as a potential candidate. Sincerely, Trason J. Carver
