

NET Developer NET Developer NET Developer - DSS Jefferson City, MO Work Experience NET Developer DSS - Jefferson City, MO 2015 to Present Department of Social Service, develop/troubleshooting/designed Web-based ASP.NET Internet applications linked to firm-wide SQL databases. Develop multiply WPF tools for migrating/ troubleshooting/analyze data. Create 4 web applications which uses Bootstrap framework. Currently designing .NET system architecture for ASP migration projects. Mentoring junior developers throughout migration project lifecycle. Access, SSRS, Crystal Reports, HTML 5, Visual Studio (2012, 2013, 2015), AJAX, MS SQL, DB2 SQL. Senior Software Engineer ITSD - DSS - Jefferson City, MO 2003 to Present DB2 SQL - Provides cybersecurity policies, coordinates the development of emergency plans, oversees experience in of the following areas: Crystal Reports, SSRS, Visual Basic, C#, F#. NET Developer DESE - Jefferson City, MO 2007 to 2015 Develops, analyzes dot.NET database-driven application (C#.NET, VB.NET) - Working with Oracle/MSSQL/DB2, using Object Oriented Analysis and Design principles. - Web Development/Support (ASP.NET, Silverlight, SSRS, Crystal Reports) - Develops, analyzes and/or coordinates highly complex project specifications such as flowcharts, logic diagrams and work flow diagrams relating to diverse organizational functions. - Build migration process from Oracle DB to MS SQL DB - service which update/modify SQL statement for Oracle to MS SQL and MS-SQL to Oracle in real time) - Convert GED Mainframe Project to dot.Net project. NET Developer AJAX, MS SQL - Jefferson City, MO 2006 to 2007 Contract position for upload ADA (Alcohol & Drag Abuse) data to Federal Government (Washington, DC). Improve performance for build XML file from 13 hours to 7 minutes. MS SQL / dot.Net programing. Scientist Russian Academy - Moscow, RU 1985 to 2003 Several of tasks from design/develop analog/digital devices, programming assembler, VHDL, Verilog. Create many type of applications (DOS 3.1/4.0, Windows 3.1/95/98/2000/NT) for gathering data, statistical processing data, publication, patenting. Education Master of Science Moscow Institute of Physics and Technology (State University) 1985 Skills .NET (10+ years), SQL (10+ years), DB2 (10+ years), DOS (10+ years), VERILOG (10+ years), MVC, C#, WCF, WPF, ASP Additional Information Ten-year USA background in diverse facets of .NET development, encompassing analysis, design, development, and execution of business applications.

In-depth knowledge of various platforms, software systems, and servers. Extensive programming experience using ASP.NET 2.0/3.0/4.0, SSRS, Crystal Report, C#, F#, VB.NET, HTML, XML, XAML, SQL, T-SQL (MS SQL, DB2 IBM, Oracle, MySQL), Bootstrap, Automation Framework. Excellent communication skills with strong background working directly with coworkers and clientele to identify business objectives and establish requirements. Eighteen-year Russian Academy of Science background in diverse facets of design, development, prototyping, programming, troubleshooting analog/digital devices encompassing analysis, design, development, and execution of scientific applications. Extensive programming experience with C#, FORTRAN, Assembler, PASCAL, Lisp, AHDL, VHDL, Verilog. Top 1% MSDN developer. <https://social.msdn.microsoft.com/Profile/vasily%20kalugin> TECHNICAL SKILLS Tools: C, C#, C++, .NET, VS.NET 2003-2015, ASP, ASP.NET, JavaScript, HTML, XML, XAML, SQL, FORTRAN, Assembler, PASCAL, F#, Lisp, AHDL, VHDL, Verilog Databases: MS SQL Server 2005 - 2016, MS Access, IBM DB2, Oracle 8/9/10, MySQL, NoSQL Platforms: Windows 10/8.1/7/2000/NT/XP/98/95, DOS 3.1/4.0 Software: Visual Studio .NET, MS Office Suite, Microsoft Management Studio, Eclipse, NetBeans
