work for various clients including: C&I Studios, ShopHer Media, The Fruitful Field and Phebus
Photography. Web Developer C&I Studios, Inc. - Fort Lauderdale, FL February 2017 to January
2019 Designed, built, and maintain Web sites, using authoring or scripting languages, content
creation tools, management tools, and digital media. Performed or directed Web site updates.
Wrote, designed, and edited Web page content, and directed others producing content. Confered
with management and development teams to prioritize needs, resolve conflicts, develop content
criteria, or choose solutions. Backed up files from Web sites to local directories for instant recovery
in case of problems. Identified problems uncovered by testing or customer feedback, and
corrected problems or referred problems to appropriate personnel for correction. Evaluated code
to ensure that it is valid, is properly structured, meets industry standards, and is compatible with
browsers, devices, or operating systems. Maintained understanding of current Web technologies
or programming practices through continuing education, reading, or participation in professional
conferences, workshops, or groups. Analyzed user needs to determine technical requirements.
Developed or validated test routines and schedules to ensure that test cases mimic external
interfaces and address all browser and device types. Developed databases that support Web
applications and Web sites. Wrote supporting code for Web applications or Web sites.
Communicated with network personnel or Web site hosting agencies to address hardware or
software issues affecting Web sites. Performed Web site tests according to planned schedules, or
after any Web site or product revision. Selected programming languages, design tools, or
applications. Developed and documented style guidelines for Web site content. Developed Web
site maps, application models, image templates, or page templates that meet project goals, user
needs, or industry standards. Established appropriate server directory trees. Identified or
maintained links to and from other Web sites and check links to ensure proper functioning.
Recommended and implemented performance improvements. Registered Web sites with search

engines to increase Web site traffic. Provided clear, detailed descriptions of Web site specifications, such as product features, activities, software, communication protocols, programming languages, and operating systems software and hardware.
