

Web Engineer Web Engineer Front-end Developer Los Angeles, CA Web developer with 15+ years of experience, specializing in UI. A coder who also values good aesthetics. Eager to optimize code, speed up performance, and simplify the maintenance of apps. Enjoys learning and sharing information. A clear communicator, practices empathy. A problem-solver with a wealth of knowledge on front-end web stuff. Authorized to work in the US for any employer

Work Experience

Web Engineer Sun Basket - San Francisco, CA January 2017 to June 2019 Sun Basket is a meal kit delivery service focused on organic and sustainable food. I wrote much of HTML/LESS/JS across sunbasket.com, adding new features in a fast-paced environment I converted the recipe section to AMP (not a fan), and made major CSS/JS optimizations throughout the site Learned Java (Spring MVC) on-site with no prior experience Advised the team on best practices and libraries Enjoyed helping junior coders learn the ropes

Web Developer Self-Employed - San Francisco, CA 2011 to 2017 During this time I created a multitude of websites for a variety of clients. Examples: <https://kaseembentley.com> - Website of Comedian Kaseem Bentley <http://jacaranda.band> - Band website, visual effects written in vanilla JS <http://standoffish.com> - My personal project, a streaming music player (Currently being re-written in React)

Web Developer Sterling Johnston Capital Management LP - San Francisco, CA 2009 to 2012

Web Developer Disney Interactive Media Group - North Hollywood, CA 2004 to 2005

Core Engineer Vivendi Universal iwin.com & uproar.com - Santa Monica, CA 1999 to 2003

Education None in Philosophy Pasadena City College

Skills Linux, jQuery, Git, Javascript, Bootstrap, Html5, Ui, Photoshop, CSS3, Responsive Design, Prototyping, Tests, Node, Java, PHP, User Interface, A/B Testing, AWS, WordPress, MySQL, Adobe Photoshop
