

Front End Developer Front End Developer Newark, NJ Work Experience Front End Developer
February 2015 to Present CSS, SCSS, SASS, BEM, Bootstraps and other CSS Frameworks Create
websites mainly for startups, including design and coding. Use Photoshop and Adobe Xd to do
wireframes and visual design and react.js Javascript, ES2015 or Wordpress for CMS. jQuery Front
End Developer UX Prototyper February 2014 to January 2015 Vue.js (the basics) Prototyped
UX/Visual designs for user testing and development handoff Node.js, Express and mongodb (the
basics) such as features for the Audible App like Audible channels and the audio Wordpress,
WAMP and MAMP and book gifting part of the app. I prototyped the mobile version of audible's
website. Developed several landing pages and html emails. I also Local by Flywheel developed for
production audible's first responsive site Webpack 2 and 3 and Gulp www.audiblestudios.com.
Responsive Web Design Front End Developer evokehealth.com July 2013 to January 2014 Browser
Standards Evoke Health as a Front End Developer. Atom, Sublime and Dreamweaver. Most of
Evoke's projects are set in a .NET environment. Some of the Photoshop, Adobe XD editors I've
used while working there are: Spring, jDeveloper and PC and Mac Microsoft Visual Studio. Other
tools I used: Bugzilla, Basecamp, Litmus and TortoiseSVN. I have an eye for design and an
understanding of UX Here are some of the projects I coded: Front end for three mobile sites
azor.com, benicar.com and LANGUAGES tribenzor.com. Built entire front end for
welcholondemand.com and Native French, Fluent in English, Portuguese, covance.sovaldi.com
(this one is password protected). German, Luxembourgish and know Spanish. Updates for:
<https://www.spiriva.com>, <https://www.spiriva.com/hcp>, <http://www.daytrana.com>, EDUCATION
<http://www.welcholhcp.com>, <http://www.psoriasisconnect.com/index.jsp> many of these also Sep.
2000 to Sep.2004, needed their mobile version to be updated, new pages to be Business
Administration Degree added, bugs to be fixed, etc. Lycee technique d'Ettelbruck Coded several
email newsletters for clients like Amgen, Pfizer, Ettelbruck, Luxembourg Boehringer Ingelheim and
many others. All the projects I worked on had to work on browsers like IE7 so I did a lot of
debugging too. 212.920.6985 filipego@gmail.com [linkedin.com/in/filipevalentegomes](https://www.linkedin.com/in/filipevalentegomes) 84, 4th
avenue, Newark, NJ07104 Front End Developer / New York and New Jersey Front End Developer

Bayard Advertising May 2012 to October 2012 CSS, SCSS, SASS, BEM, Bootstraps and other CSS Frameworks I was the only developer at Bayard Advertising. I managed three interns. I worked on all of their web projects. Unfortunately, due to the lack of work, Javascript, ES2015 they did not need my services anymore. jQuery Here are some of the projects I did: React.js and React-Native I created their main website for desktop and smartphones. Vue.js (the basics) <http://bayardad.com> (Desktop version done in less than 6 days with Node.js, Express and mongodb (the basics) the help of one intern) Wordpress, WAMP and MAMP and Career site for Central Florida Health Alliance. Local by Flywheel <http://cfhacareers.com> Career site for St Luke's hospitals. Webpack 2 and 3 and Gulp <http://www.saintlukeshealthsystemcareers.org> Responsive Web Design Landing pages for PeaceHealth. Git, Github and Bitbucket <http://bayardad.com/dev/PeaceHealth/index.php/LeadershipCareers> Browser Standards (I also created 3 similar landing pages, not live yet) I created 3 mobile sites for CRST. (No link because these websites Atom, Sublime and Dreamweaver. are for internal use only) Photoshop, Adobe XD PC and Mac Founder, General Manager and Front End Developer realwebdesigns.com September 2005 to May 2012 understanding of UX I founded this web design agency nine years ago in an effort to implement self-taught skills in web design.
