Education B.S. in Information Technology UNIVERSITY OF PHOENIX 2012 Skills AUTHENTICATION (Less than 1 year), BOOTSTRAP (1 year), CONTENT MANAGEMENT (Less than 1 year), CONTENT MANAGEMENT SYSTEM (Less than 1 year), CSS (Less than 1 year), Javascript, Wordpress, HTML (1 year), Python (1 year), JQuery, Front End, HTML5 Links <http://www.linkedin.com/in/tomrhoadswebdev> <http://www.github.com/tomrhoads> <http://www.tommyrhoads.com> Certifications/Licenses Full Stack Web Developer Nanodegree April 2017 to Present Additional Information Technical Skills Languages: HTML, CSS, JavaScript, Python. Frameworks/Libraries: Bootstrap, JQuery, Flask, PostgreSQL. Other: Linux Server, Git/Github Projects NEIGHBORHOOD MAP Built single-page web application using the knockout framework that locates parks in my city. Extra information about each park provided by the use of third-party APIs such as FourSquare and Google. Discovered the vast amount of data accessible through the use of APIs. MULTI-USER BLOG Engineered a multi user blog hosted on the Google App Engine. Implemented third-party authentication with Google sign-in. Improved skills by starting a project from scratch with Python. ITEM CATALOG Developed a content management system using the Flask framework in Python. Provided authentication with OAuth and all data is stored within a PostgreSQL database. Realized the technologies needed to be able to create, read, update, and delete records in a web

app. VIKING PIANO MOVERS WEBSITE    Devised a single page website using the Bootstrap framework for mobile responsiveness.    Assessed the needs of the business to create a user-friendly customer experience upon visitation.    Formulated a layout that precisely expresses what the company can offer to prospective customers.
