

Developer Developer Chattanooga, TN Authorized to work in the US for any employer Work Experience Developer Tennessee Valley Authority - Chattanooga, TN December 2016 to February 2019 Enhance and support applications as part of the External Relations team. Worked on the Customer Energy And Demand Data application. Angular 6, c# back end, used by customers to monitor their power consumption. The admin portal is straight ASP.net MVC, both apps share a SQL database. The Strategic Dashboard - an attempt to centralize as much data as possible for use by the business in decision making. There is an angular/C# app, but most the work was SQL and C# ETLs Some report work for both applications. Developer CoStar - Atlanta, GA August 2015 to August 2016 Responsible for development of the the CoStar Real Estate Manager application. Member of Team BrainTrust, later switched to Team Wildlings. Brain Trust was primarily tasked with work on the The ETL (Extract, Transform, Load) module. The web app portion was ASP.net/VB.net. The service layer is C#/WPF. Work in MetaMan, the Costar ORM layer. Entity Framework, WCF, C#. on Wildlings, primarily worked in the Accounting Module. This brand new feature will allow clients to manage leases and portfolios based on a new, international, set of standards released in 2016. The module is Angular.js on the front end, VB.net on the back end, and the service that performs financial calculations is written in C#. Software Developer VersionOne - Atlanta, GA May 2014 to March 2015 As a member of team Heisbenberg, work included both client side (javascript) and back end (C#) development with the former representing a slight majority of my development time. Custom field editing/ordering - improved the admin UI for managing custom fields in the VersionOne application, including adding the ability to order fields. Sticky Headers - added sticky headers to several different types of grids in the application. This was a major quality of life improvement. Overhaul of authentication process for third party applications using VersionOne APIs, leveraging Oauth 2.0 and making it much more developer friendly. Community of Practice - social media like features added into VersionOne application Software Developer Dialog Medical - Atlanta, GA April 2010 to May 2014 iMed4Web, the company's primary web application: ajax with Dojo + javascript on the front end, C# on the server. Windows services that supported applications in the field, like the DocumentService and the DocumentPrepService, the primary function of which

is to get patient documents back into client EMR systems. Database work with a little bit of reporting. Various individual tools and utilities that handled a wide range of tasks from specific patch needs to facilitating our support staff. Development and maintenance of VB6 desktop application, a legacy product used by the biggest client. Systems Analyst II RC Cancer Centers - Atlanta, GA June 2006 to January 2010 Helped develop the Patient Portal, an ASP.net/C# internet web application patients could access to download forms for office visits and fill out basic demographic data. Worked extensively on the Prostate Research Data Entry Application, fixing bugs, adding new business rules and functionality. Used JQuery to implement dynamically changing forms based on user input. Worked on the Voyager patient management system and created web front end for Reporting Services reports. Wrote many reports in Crystal Reports and Reporting Services. Software Developer Imedia Group - Macon, GA October 2004 to May 2006 Worked on ASP.Net/C# web applications for various company magazines that included forms for article submission/picture upload. Developed HTML email templates for mass-mailings for customers via internal web app. Managed company computer hardware. Education Bachelor's in Information Technology Macon State - Macon, GA January 2001 to January 2005 Bachelor's in Economics University of Georgia - Athens, GA July 1995 to 2000 Skills HTML, Javascript, jQuery, XML Assessments Critical Thinking Expert August 2019 Using logic to solve problems. Full results: https://share.indeedassessments.com/share_assignment/i3jf1dtsl-94bfuk Problem Solving Expert August 2019 Measures a candidate's ability to analyze relevant information when solving problems. Full results: https://share.indeedassessments.com/share_assignment/u26tvjs-8tdigzg2 Indeed Assessments provides skills tests that are not indicative of a license or certification, or continued development in any professional field.
