

Web Application Developer Web Application Developer Web Application Developer - Seattle Seattle, WA Javascript. AngularJS & jQuery. Dynamic Project Scaffolding. Git SVN. These are all things that make me very excited. How do build new solutions and never look back. Work Experience Web Application Developer Whitebox Mobile Production - Seattle, WA February 2012 to Present Whiteb0x With the recent explosion of Javascript MVC and Responsive Design - it has been important for developers to stay aligned with specific technologies. Under Whiteb0x, a company which I have completed several projects in the last year, I was lucky enough to use technologies like Bootstrap, AngularJS, NodeJS, Grunt, Bower, Yeoman, UnderscoreJS, BackboneJS, etc It is my goal to take this experience and move into a career that requires these skills. Jeffrey Jones admin@whiteb0x.com (909) 243-9869 mobile Front End Developer Plain Concepts - Seattle, WA March 2011 to February 2012 Internal Projects for Microsoft including "Contoso" applications, which are mock applications for Windows 8 - concentrating heavily on HTML5, CSS3, Javascript and prototyping.
