

Programmer/Analyst Programmer/Analyst Saint Louis Park, MN Well versed with all stages of Software Development Life Cycle (SDLC). Extensive knowledge in OOPS concepts, VB.NET, C# and .NET Framework. Experience in developing Windows and Web Services. Hands on experience with REST, SOAP, HTTP and TCP/IP protocols. Well experienced in writing complex Database Queries, Stored procedures, Triggers, and Views. Experience in Testing (Unit, System and Regression Testing) and developing test cases. Ability to lead software development teams, design software and databases with effective time management and proficient data analysis. Experience with Agile and Waterfall methodologies. Enthusiastic and eager to learn new technologies and implement them in challenging environments. Sponsorship required to work in the US Work Experience Program

Programmer/Analyst Global Shop Solutions - The Woodlands, TX July 2015 to Present Designed and developed a WCF based secure relay server that authenticates clients and transfers information to and from the database via a windows service. Designed and developed various GAB (company's proprietary programming language) commands that contribute to our ERP system. Extensively analyzed and improved the performance of GAB by reducing the execution time by 40% of the original time. Implemented nsoftware's SOAP and REST APIs for customers to interact with our ERP system. Designed and Developed a SOAP web service to access data from the database and hosted it on IIS. Worked on LINQ and ADO.Net objects in various applications to communicate with the database. Gathered requirements and developed a windows service using Avaya's APIs to keep track of company's service calls. Maintained and added new features to GAB SDK, used by customers to augment and customize their experience with company's ERP software. Managed a team of developers creating internal software tools to assist other developers. Assigned tasks, set design and code review meetings, and ensured team members' understanding of requirements. Responsible for extensively testing and documenting any changes to the SDK. Trained new hires and interns on GAB.

Software Web Developer Learning and Assessment Services, University of Houston May 2014 to August 2014 Designed and developed applications in C# for various departments at University of Houston. Gathered requirements and performed requirement analysis to determine functional and system requirements

for the applications. Used ADO.Net objects to communicate with the database server. Written complex SQL queries and Stored Procedures. Extensively tested and documented applications for future reference. Technologies and Tools: Visual Studio 2012, C#.Net, ADO.Net, SQL Server 2008 Education Master of Science in Computer Science in Databases University of Houston - Houston, TX May 2015 Bachelor of Technology in Computer Science and Engineering in Computer Science and Engineering Kakatiya University May 2013 Skills Sql server, Sql, Microsoft visual studio, Visual studio, C#, C++, Html, Javascript, Wcf, Scripting, Svn, Vb.net, Asp, Css, Iis, Asp.net, Web services, Mvc, Soap, Rest Additional Information SOFTWARE SKILLS Programming Languages: C#, VB.NET, SQL, C, C++, Shell Scripting, HTML, CSS, JavaScript Technologies: ASP.Net, REST, SOAP, WCF, Web Services, and Windows Services, MVC Tools and OS: Microsoft Visual Studio, SQL Server, IIS, SVN, UNIX, Windows
