your organization. I have known Mr. Harting for almost one year during which time he worked as an Associate Business System Support Specialist in my department. Mr. Harting was a valuable asset to my team and I thoroughly enjoyed my time working with him. He is honest, dependable, has a high level of integrity, and is incredibly hard-working. Beyond that, he is very detail oriented and a self-starter, which served him well managing projects. His database knowledge was a huge advantage for our company. These skills allowed him to successfully lead the contract management system implementation on one of our new contracts as well as support the existing contract management systems on our other contracts. In addition, Mr. Harting was responsible for the implementation of our security awareness training and phishing program. This was in addition to his support of Unanet, our timecard and expense report system, ReQlogic, our purchasing system, and Microsoft Dynamics SL, our accounting system. Along with his undeniable talent, Mr. Harting has been a joy to work with. He is a true team player and is able to coordinate with fellow employees, consultants, and vendors to bring a project to a successful completion. Mr. Harting's separation from Sierra Lobo was in no way related to his performance, but was instead due to his position being eliminated as part of a corporate-wide reduction in force. I confidently recommend Mr. Harting to join your team. As a dedicated and knowledgeable employee and an all-around great person, I know that he will be a beneficial addition to your organization. Please feel free to contact me should you like to discuss Mr. Harting's qualifications and experience further. I'd be happy to expand on my recommendations.

Sincerely, Mark T. Tyler
