

DATABASE ADMINISTRATOR DATABASE ADMINISTRATOR DATABASE ADMINISTRATOR - Wipro Technologies Bellevue, WA Work Experience DATABASE ADMINISTRATOR Wipro Technologies - Seattle, WA January 2016 to Present Installed, Configured, and Managed SQL Server 2016, 2014, 2012 & 2008 R2 in development, and production environment Configured and Maintained Fail-Over Clustering & AlwaysON using SQL Server 2012 & 2014 Experience in migrating from SQL Server on premises to Azure SQL Database Maintained server and database security including database encryption (TDE) Installed and Configured SQL Server Reporting Services (SSRS) Configured and Maintained Replications, Log Shipping, and Mirroring for High Availability. Upgraded/Migrated SQL Server Instances from older version to new version like 2008 R2 to 2012 and 2012 to 2014. Applied SP (Service Pack)/ Hot Fixes on SQL Server Instances to address security and upgraded related issues Performed database and SQL/TSQL Performance Tuning. Wrote SQL, Stored-Procedures, functions, and Triggers Scheduled many jobs to automate different database related activities including backup, monitoring database health, disk space, backup verification. Deployed and Restored database including Point in Time Recovery Create and managed different types of Indexes (Cluster/Non-Cluster), Constraints (Unique/Check) Deployed SSIS packages to move data across server, move logins, load data from different data sources DATABASE ADMINISTRATOR Infotech - Hyderabad, Telangana July 2013 to July 2015 Upgraded SQL server databases from 2000/2005 to 2008R2/2012 Configured and managing Always-ON availability groups, Clustering, Replication and Mirroring in SQL server 2012, 2014 Configured log shipping for multiple databases as a part of DR Implementation of SQL Logins, Roles and Authentication Modes as a part of Security Policies for various categories of users Experience in backup, restore and DB Refresh activities Analyze long running slow queries and tune the same to optimize application and system performance Reorg/Rebuilding the indexes at regular intervals for better performance Involved in trouble shooting and fine-tuning of databases for its performance Configuring TEMP DB on files and file groups and capacity planning of databases SYSTEMS ENGINEER WIPRO BPO LTD - Hyderabad, Telangana July 2011 to June 2013 Installing and configuring .NET & SQL based applications on IIS 8.0/7.5/6.0 Web servers on

Windows 2012/2008 R2 Servers    Migrating applications from IIS 6.0 to 7.5 as well as IIS 6.0 to IIS 8.0    Can manage 24/7 critical production databases    Supported Nearly 80+ Servers without any escalations and ticket breaches    Working and communicating with Clients, Application Team to set and meet quality standards and deadlines.    Maintenance activities implemented during weekend for better performance.    Prepared documentation for all the activities performed and sharing the knowledge among the team members

Education Master's Degree in Software Engineering in Software Engineering Birla Institute of Technology & Sciences - Pilani, Rajasthan

Skills Database, Sql server, Sql, Ssrs, Tableau Certifications/Licenses TS/SCI clearance
