

Software Developer Software Developer Software Developer North Carolina As a graduate from East Carolina University with a degree in Computer Science, I am actively pursuing a career in software and hope to do so with a reputable company. After graduating I started doing freelance programming and bug bounties for hackerone while living at home to help take care of a family member. I'm currently hoping to relocate and start working as a Junior Developer.  
<https://github.com/TylerSharpe11> Authorized to work in the US for any employer Work Experience Software Developer BountySource.com April 2015 to Present I contributed to open source projects and would get paid by bountysource.com. Penetration tester Hackerone - Winston-Salem, NC April 2015 to Present I've worked on many different websites to find and report bugs and find security vulnerabilities in their code. Education BA in Computer Science East Carolina University - Greenville, NC Skills Javascript, Java, C#, Python, Visual Studio, SQL Links <https://github.com/TylerSharpe11>
