

SELF-EMPLOYED SELF-EMPLOYED SELF-EMPLOYED - SELF-EMPLOYED Tampa, FL
Authorized to work in the US for any employer Work Experience SELF-EMPLOYED
SELF-EMPLOYED - Columbia, MD September 2016 to Present Software Developer Led the
development of an advanced web application for the creation and sharing of character load-outs for
a gaming community that is over 100,000 strong; included responsibility for managing the overall
software development lifecycle from needs assessment through delivery and implementation.
Evaluated need for web application or online service sufficient to determine the most practical and
efficient strategy for delivering web services to target audience and select appropriate platform.
Leveraged state-of-the art development tools, programming methods, and equipment as well as
developing necessary documentation, flowcharts, diagrams, and code comments. Identified and
mitigated web service security concerns post-launch. Used community feedback to identify errors
and add enhancements resulting in a significant increase in website traffic. Between January and
April 2018, number of visits increased by over 1,000% from 400 to 4,777 visits and number of
unique visitors increased by 1,300% from 240 to 3,487 unique visitors. Website is currently the #1
search result on Google when searching for character load-outs for the targeted gaming community.

Drove website visits by authoring and publishing a community guide on the web application's
design and purpose on Steam for the targeted gaming community. Gaming guide received a 4-star
rating on Steam and trended as the #1 rated guide on Steam community hub for 2 successive
weeks. Teamed with the community to produce language translations of the website. Systems &
Network Administrator, Technical Advisor, IT Planner ORACLE NON-PROFIT July 2017 to October
2017 Conducted system backups and produced a backup plan to automate them. Performed
Windows 8 - 10 & XP maintenance and system hardening. Produced a plan for system & network
