

Software Developer Software Developer Software Developer - Optimal Solutions Group LLC Silver Spring, MD 5+ years of experience in different phases of SDLC including design, development, integration, implementation, testing, maintenance, and mentoring in multiple client/server, multi-tiered web based applications. Sponsorship required to work in the US Work Experience Software Developer Optimal Solutions Group LLC - College Park, MD July 2016 to Present Cloud based surveying tool that captures real time data and processes it. Involved in development of web-based data management application using .Net Framework, C#, MS SQL Server, ASP.NET MVC, Entity Framework, AngularJS, Web Services, JQuery, Telerik controls and Agile methodology.

Working with ASP.NET Razor framework, Caching, LINQ, Windows / Forms Authentication and developed custom User Controls. Developed and maintained SQL Stored procedures and objects for backend development. Implemented automated test cases using Microsoft Unit Test Framework/MOQ for test driven development. Built logic to achieve automated recurring payment using PayPal Payflow. Configured TeamCity for continuous builds of product and integrated it with Octopus to deploy product to test and release environments. Software Engineer Client- Officetree Corporation - San Diego, CA March 2013 to July 2014 Office applications suit that manages customers, companies, invoices, and provides customer support. Involved in various phases of developing software starting from the project planning production and maintenance using .Net Framework 4.5, MS SQL Server 2012/2008, JavaScript, AJAX, Web Services. Worked with ASP.NET Web Forms, State Management, caching features, for optimization and configuration of the web application using C#.NET Designed, developed, and performed troubleshooting using ASP.NET MVC 4, JQuery, HTML5 Razor, XML, WCF, WPF and CSS3 using Agile development practices. Used JSON to transmit data between Server and Web Application. Used Rich server controls of ASP.NET such as data grid and repeater controls. Worked on SQL Server 2008/2012 to write Stored Procedures (Packages, Procedures, Functions) for back end development. Worked on requirements gathering/develop/design fast track CRs (Change Requests) using C#. Ability to work independently and drive issues to closure. Used Microsoft Team Foundation Server (TFS) and SVN for all the source code maintenance among the whole team members. Software Engineer

Manek Tech - Ahmedabad, Gujarat August 2010 to March 2013 India E-Prescription Portal for Dentists. Involved in developing software using .Net Framework 4.0, MS SQL Server 2008/2012, JavaScript, AJAX, Web Services, DevExpress and Telerik third party controls. Developed solutions for diverse programming scenarios in C#, employing Object Oriented Programming (OOPs). Implemented the business logic in the middle tier using C#.NET and used Master Pages templates, CSS, Ajax, and Themes to define unified look and feel for the application. Utilized ADO.Net technology extensively for data retrieving, querying, storage and manipulation using LINQ.

Extensively involved in generating pdf reports using DevExpress and Telerik third party controls. Extensively used ASP.NET server controls like Calendar control, Data Grid. Implemented exception handling and developed custom error pages and developed the back end layer for the work flow solution Created and developed independent WCF (Windows Communication Foundation) services and defined Service Contracts for specific functionality in search module.

Used Microsoft Team Foundation Server (TFS) for all the source code maintenance among the whole team members. Education Master of Science in Computer Science in Computer Science California State University - Los Angeles, CA September 2014 to June 2016 Bachelor of Engineering in Computer Science in Computer Science Babaria Institute of Technology, Vadodara, Gujarat University - Ahmedabad, Gujarat June 2007 to April 2011 Skills .Net (5 years), ASP (5 years), ASP.NET (5 years), C# (5 years), MS .NET (5 years), jQuery, Javascript, CSS, HTML 5

Links <https://www.linkedin.com/in/parthchavda> Additional Information Technical Skills Languages: C#, SQL, Java, VB.NET, C, Python, C++, VB, PL/SQL Web Technologies : HTML, CSS, JavaScript, AngularJS, NodeJS, JQuery, ASP.NET AJAX, MVC, Web Services, WCF, JSP, ASP, RESTFul Services, Bootstrap, Java Servlets, JSTL, EJB. MS Framework: .NET Framework 4.5/4.0/3.5 Databases: MS SQL Server 2012/2014/2016, MySQL, MongoDB, Oracle 10g/11g, DB2, PostgreSQL. Packages: Microsoft Visual Studio, SQL Server Management Studio, Eclipse, TOAD, Net Beans Version Control Tools: Git, Team Foundation Server (TFS), Tortoise SVN, Visual Source Safe (VSS).
