

MICROSOFT SQL SERVER DATABASE ADMINISTRATOR MICROSOFT SQL SERVER DATABASE ADMINISTRATOR MICROSOFT SQL SERVER DATABASE ADMINISTRATOR Alexandria, VA Work Experience MICROSOFT SQL SERVER DATABASE ADMINISTRATOR SIDONA ICT SOLUTIONS 2016 to 2018 INSTITUTE, SIDONA ICT SOLUTIONS. Managed Migration of MS SQL Servers 2008R2 to 2012 and Performed upgrades and service packs. Developed and performed SQL server post installation Maintenance plans: Database backups, Integrity Checks, Update Database Statistics and Index maintenance using GUI and T-SQL. Managed SQL Server Security including Implementation of SQL Logins, Roles, Authentication Modes and SQL server Audits for various users. Involved in Design and implementing SQL server comprehensive disaster recovery strategies including log shipping, replication and mirroring. Analyzed and Optimized T-SQL/and store procedures using execution plan and Created indexes Monitored, troubleshoot, Optimized and fine-tuned databases' Performance issues using Database Tuning advisor, SQL server Profiler, Monitors, DBCC and DMVs. Resolved concurrency issues in SQL server by adding Index, tuning queries, identifying missing index and using appropriate isolation level. Deploy SSIS packages for importing and exporting data from MS Access, Excel and deployed into SQL server management studio. Participated in primary and secondary on call rotation and provided on-call troubleshooting for SQL Server service outages after hours MICROSOFT SQL SERVER DATABASE ADMINISTRATOR COMPANY, KIFIYA FINANCIAL TECHNOLOGY PLC 2013 to 2016 Migration of MS SQL Servers 2008R2 to 2012 and Performed upgrades and service packs. Involved in Design and implementing SQL server comprehensive disaster recovery strategies including log shipping, replication and mirroring. Developed and performed SQL server post installation Maintenance plans: Database backups, Integrity Checks, Update Database Statistics and Index maintenance using GUI and T-SQL. Managed SQL Server Security including Implementation of SQL Logins, Roles, Authentication Modes and SQL server Audits for various users. Performed backups and restores Shrink database and files to reclaim space Analyzed and Optimized T-SQL/and store procedures using execution plan and Created indexes Monitored, troubleshoot, Optimized and fine-tuned databases' Performance issues using

Database Tuning advisor, SQL server Profiler, Monitors, DBCC and DMVs. Resolved concurrency issues in SQL server by adding Index, tuning queries, identifying missing index and using appropriate isolation level. Participated in primary and secondary on call rotation and provided on-call troubleshooting for SQL Server service outages after hours. Administered and applied SQL Server Security best practices and transparent data encryption. Created SSIS Packages and jobs to import data from Flat file to MS SQL server 2005/2008/2008R2. Established and Scheduled Database Backup and Other Maintenance plans for User and System databases right after SQL server Installation process is done. Installed and applied Service Packs/Hot fixes and created documentation for tracking and SQL server installation purposes. Rebuild and reorganize Indexes on tables to reduce fragmentation and enhance SQL server Performance. Developed SQL agent Jobs, Operators, Alerts, Notifications and Scheduled those Job accordingly. Solved SQL Server performance issues; Tuned and optimized Queries for maximum efficiency. Configured and Supported SQL Server Log Shipping, Database Mirroring, Transactional and snapshot Replication. Created and Managed Databases, Tables, Indexes, Views, Triggers and Store procedures.

2 MICROSOFT SQL SERVER DATABASE ADMINISTRATOR ORES TECHNOLOGY GROUP 2011 to 2013 Administering SQL Server High Availability and Disaster Recovery strategies. Implemented the new SQL Server 2012 mechanisms like data compression, online indexing, Contained Databases, security principals and AAG. Experience in using DMV and dynamic management functions for finding out long running queries. Worked extensively on Clustering and server consolidation. Experience in Disaster Recovery Planning and Security Management operations. Proficiency and expertise in SQL Server Replication, Backup/Recovery, Disaster recovery and planning. Having hands on experience in DR processes including Log Shipping and Database Mirroring. Worked on configuring SQL Server with minimum privileged access. Troubleshoot performance problems, fine-tuning of databases and index Analysis. Worked on SQL Server 2012 migration from SQL Server 2008 / 2005. Implemented Always-ON (AAG) on SQL Server 2012 SP2 CU5 Experience in supporting Very Large databases (VLDB) and troubleshooting the problems. Strong experience in mentoring team members and writing

documentation. 24 X 7 Production Database on Call Support on. Troubleshooting production issues and raising high availability. Handling Memory configurations for SQL Server 2014 and SQL Server 2012 on Windows 2012. Experience in Batch processes, Import, Export, Backup, Database Monitoring tools and Application support. Skills Database, Java database connectivity, Jdbc, Java, Graphics design Additional Information SKILLS Ability to Work Under Pressure Basics of Java Decision Making Graphics design Conflict Resolution Computer proficient Leadership JDBC (Java database connectivity) Adaptability Teamwork Creativity Self-motivated
