

Software Developer Software Developer Software Developer Ewa Beach, HI Authorized to work in the US for any employer Work Experience Software Developer Hoike Services Inc - Honolulu, HI February 2008 to June 2019 Transitioned the legacy insurance system to a new, upgraded insurance system. Created a standalone Microsoft C# program to retrieve and format the Oracle database data to be imported into the new system. Implemented new features on the legacy Insurance system. Fixed bugs on the various software components of the legacy insurance system. Produced reports on demand, and automated their generation if needed. Assisted Business Analysts in searching for undocumented information that can only be found embedded within the systems' code, such as rating formulas, discounts, and fees. Provided backup to Database Administrator when needed, especially when he goes on vacation or is inundated with work. Web Applications Developer Intern Servco Pacific Inc - Honolulu, HI November 2007 to January 2008 Developed and updated sales statistics web pages using Adobe ColdFusion Software Engineer II Spirent Communications, Inc - Honolulu, HI June 2004 to June 2007 Helped in development of Spirent's TestCenter Tcl API for Cisco's command-line HLTAPI specifications. This product helped establish a foothold in Cisco, a major customer. Represented Honolulu site for multi-site TestCenter regression system. Created the test foundation for a number of network protocols. Assisted various development groups with hardware configuration and daily sanity tests. Prevents developers from breaking main builds, potentially delaying development across the various sites. Added new Tcl/C API library features for Spirent's AX/4000 Broadband Test System, a modular, multi- port system that generates broadband test traffic, analyzes full rate traffic in real time, and simulates network induced delays and Quality of Service (QoS) impairments. Corrected reported bugs on the AX/4000 GUI software. Education BS in Information and Computer Science University of Hawaii at Manoa - Honolulu, HI Skills Oracle PL/SQL (8 years), SQL (10+ years), Microsoft Visual Basic 6.0 (10+ years), Centura/Gupta (similar to Microsoft Visual Basic 5.0) (10+ years), C (10+ years), C++ (2 years), Tcl (5 years), GNU bash (3 years), Microsoft VBA (3 years), Microsoft Windows Batch Scripts (3 years), HTML (2 years), Microsoft C# (2 years), Java (1 year), Laravel PHP web framework (Less than 1 year), Angular 2+ web application framework (Less than 1

year), Python (Less than 1 year), COBOL (Less than 1 year)
