Willingness to work in a highly dynamic environment and ready to take up challenges. Authorized to work in the US for any employer Work Experience Python/ Legacy Application Developer Location- Adventist Care Center - Orlando, FL October 2016 to Present Technology- Python, Html, CSS, Flex, Django Framework, Mysql, Ms-sql, Server connection, Linux, JSON, MongoDB many other supporting libraries Tools- Adobe Flash Builder, Eclipse, Pycharm, Mysql server, Ms-sql Server Responsibilities Made Django based project for Health Care system/ Long Term Care(MDS) Made Python scripting HL7 Messages parsing and feeding to legacy system. Working on Therapy Scheduler Django based project using Python script Maintained all python/java/django applications used by Adventist Care Centers Gathered all

requirement for developing and analysing requirement of projects in giving time. frontend and backend modules using Python on Django Used My sql and MS Sql for database design for different projects Used API to communicate to other server via xml files. Used Test driven approach for developing the application and Implemented the unit tests using Python Unit test framework. Used Flash for developing front end design Used JavaScript and CSS for front end support Involved in the Complete Software development life cycle (SDLC) to develop the application. Followed AGILE development methodology to develop the application. Worked on Window and Linux environment for development and test Implemented Integration test cases

Python Developer Commpunel Software Inc - Orlando, FL August 2016 to October 2016
Technology- Python, Html, CSS, Flex, Django Framework, Mysql, Ms-sql, Server connection, Linux, JSON, MongoDB many other supporting libraries Tools- Adobe Flash Builder, Eclipse, Pycharm, Mysql server, Ms-sql Server Responsibilities Architect, document, and build APIs for web and other integrated applications Made Django based project for Health Care system/ Long Term Care(MDS) Follow best engineering practices, including: Ensuring that code adheres to defined coding standard Writing friendly, valid, well-commented code Using source control to maintain and track code Work with the development team, marketing team, and others or to produce deliverable that match the creative vision for digital products and communications Coordinate with Quality Assurance to define test-driven requirements build front end by using HTML, css and validation by javascript

Python Developer Unicon Labs Inc - Orlando, FL March 2016 to August 2016 Responsibilities Made Django based project for Health Care system/ Long Term Care(MDS) Architect, document, and build APIs for web and other integrated applications Follow best engineering practices, including: Ensuring that code adheres to defined coding standard Writing friendly, valid, well-commented code Using source control to maintain and track code Work with the development team, marketing team, and others or to produce deliverable that match the creative vision for digital products and communications Coordinate with Quality Assurance to define test-driven requirements build front end by using HTML, css and validation by javascript

Architect SAP Solution October 2012 to May 2013 Junior Consultant Responsibilities: Worked

on Ruby RegEx pattern matching and text matching Worked on manual testing the project website. Used <http://rubular.com/> tool for testing it Programming part for updating website and fixing it. Technology used: Ruby regex, manual testing, Java Education Texas A & M University - Kingsville, TX January 2014 to December 2015 Skills CSS (1 year), Eclipse (Less than 1 year), Html (1 year), java (1 year), JavaScript (1 year) Additional Information TECHNICAL SKILLS Platforms Windows, Unix/Linux Programming Skills Java, J2EE, SQL, PL/SQL, Design Patterns, XML, XSLT, JDBC, ASP.net Frameworks Spring, Hibernate. Web Technologies Database HTML 5, CSS, JavaScript, AJAX, J-Query and UI, SOAP Oracle, MySQL, Microsoft SQL Server Servers Web sphere, Apache Tomcat Repository Tools Perforce Other Skills Enterprise Product Catalog, Clarify CRM Framework. Other Tools Used Eclipse, ANT Build, SQL Developer, Visual Studio, Putty

AREAS OF EXPERTISE Software Development and Design Java/J2EE Applications Design Patterns Database Normalization & Migration Problem Solving Multi-tier applications Data Structures and Algorithms Operating System Concepts Multinational/Multilingual experience
