

SQL Server DBA SQL Server DBA SQL Server DBA Duluth, GA Authorized to work in the US for any employer Work Experience SQL Server DBA Vensure - Duluth, GA January 2019 to Present *

Build database systems of high availability: Replication, Mirroring, Log Shipping, Clustering and Always ON. *

Design and implement database in accordance to end user's information needs and views *

Define users and enable data distribution to the right user, in appropriate format and in a timely manner *

Use high-speed transaction recovery techniques and backup data *

Design and implement database in accordance to end user's information needs and views *

Minimize database downtime and manage parameters to provide fast query responses *

Provide proactive and reactive data management support and training to users *

Determine, enforce and document database policies, procedures and standards *

Perform tests and evaluations regularly to ensure data security, privacy and integrity *

Monitor database performance implement changes and apply new patches and versions when required. Consultant (Database Administrator) RS - GA March 2017 to December 2018 *

Database upgrades, installation, and configuration *

Project management *

Schema/table verification and data ingestion *

Orchestrated data migrations *

Pre-deployment testing *

Deployment to production services *

Thorough evaluation of existing environment to gauge systems' health and stability *

Technology selection based on budget and desired outcomes *

Database design and data modeling *

Capacity planning *

Upgrade and migration planning, SQL Server Versions: 2005, 2008R2, 2012, 2014, 2016, 2017 *

Capacity, performance, and security audits *

24/7 monitoring, problem resolution, and root-cause analysis *

Proactive health checks *

Continuous operational improvements *

Ongoing change requests for design and implementations *

Configuration management *

Performance tuning, high availability testing, and disaster recovery

SQL Server DBA PACIFIC SYSTEMS INC - Atlanta, GA October 2014 to March 2017 *

Installed and Upgraded from SQL Server 2000 to 2005, 2008R2, 2012, 2014, 2016, 2017 on Various Production Servers. *

Migrated Databases from SQL Server 2005 and SQL Server 2008 legacy application to SQL Server 2012 with deprecation of clustering and mirroring HA solutions and replace with Always On solution. *

Worked with table partitioning (SQL Server 2008) mechanism to allow the SQL Server engine to escalate locks to the partition level before the table level. *

Worked

with Transparent Encryption, table compression, database compression and merge statements using SQL server 2008. * Used Policy Based Administration feature (SQL Server 2008 R2 and 2012). * Worked With 'insert' commands to programmatically INSERT data if it does not exist or UPDATE the data if it does all in 1 set of logic (SQL Server 2008). * Created new database objects like Tables, Procedures, Functions, Indexes and Views using T-SQL in Development and Production environment for SQL Server 2005 and 2008 R2 and 2012. * Setting up and Monitored transactional replication, Database mirroring on Production and QA servers. * Worked in Active-Active Cluster environment as a High availability solution. * Tuning queries which are running slow using Profiler and Statistics I/O by using different Methods in terms of evaluating joins, indexes, updating Statistics and code modifications. * Extensively used TSM litespeed backups. * Expert in Performance Tuning of the Stored Procedures. * Checking Database Health by using DBCC Commands and DMVS. * Monitored and modified Performance using execution plans and Index tuning. * Experience in Database security and integrity planning. * Used log shipping for synchronization of databases. * Prepared Documentation for the Disaster Recovery plan. * Designed Data Integrator jobs with Error Handling and email notifications. * Managing Databases spread across multiple servers in Production, Development, staging & testing environments. * Daily routine DBA tasks like handling user's permissions and space issues on Production and Test servers. * Developed and optimized database structures, stored procedures, Dynamic Management views, DDLtriggers and user-defined functions. * Performed the migration of SQL Server 2000 to SQL Server 2005, 2008R2, 2012, 2014, 2016, 2017. * Configured the servers on 32 bit and 64 bit clustered and standalone server environments * Installed and maintained 2-Node (Active-Active) Clustering as a High availability solution. * Responsible to Monitor and troubleshooting Log Shipping. * Implemented and maintained Database mirroring as a Disaster Recovery Solution. * Migrated legacy databases with upgrade from SQL 2005 and 2008R2 to SQL 2012 and SQL 2014, 2016, 2017 with Always-On configuration SQL Server DBA GLOCONNECT GLOBAL COMM INC - Atlanta, GA May 2012 to August 2014 * Installing SQL Server with standard access privileges service account to improve security and to attain high ratings in Sox and PI audits. * Installed,

configured SQL Server 2008R2 Clustering on Microsoft Clustering services (MSCS) for Active-Passive and Active-Active cluster Nodes. * Involved in Analyzing and Upgrading SQL Server 2000 servers to SQL Server 2008R2. * Perform SQL Server service pack and Windows Service pack upgrades. * Designed and implemented comprehensive Backup plan using Native SQL and BUR and EMC DDBoost * Resolved and tweaked memory pressures caused during production release. * Worked with customers on Application rollouts and server migrations. * Supported Very Large databases (VLDB) and troubleshooting related problems. * Strong experience in mentoring team members and writing documentation. * Troubleshoot performance problems and fine-tuning of databases. * Expertise in designing databases and capacity planning. * Experience with rebuilding the indexes and statistics update at regular intervals for better performance. * Designed and implemented comprehensive Backup plan and disaster recovery strategies Implemented. * Provide 24x7 production support for SQL Server databases on standalone and Clustered Servers with sizes ranging from 1 to 2 Terabytes to achieve maximum performance and uptime in production environment. * Worked extensively with Query analyzer and profiler for tuning queries using variable for characteristics and query costs. * Monitored and modified Performance using execution plans and Index tuning. * Transferring the data (ETL) to Data warehouse with SQL Server 2005 and 2008R2 Integration Services. * Involved in troubleshooting and fine-tuning of databases for its performance and concurrency. * Implemented and Scheduled Replication process for updating our parallel servers in autonomous sites. * Designed and created databases, tables, views, store procedures and triggers. * Handling Memory configurations for SQL Server 2012 and SQL Server 2008R2 on Windows 2008R2. * Experience in Batch processes, Import, Export, Backup, Database Monitoring tools and Application support. * Responsible for monitoring and making recommendations for performance improvement in hosted databases. This involved index creation, index removal, index modification, file group modifications, and adding scheduled jobs to re-index and update statistics in databases. Customer Service Rep McGEE & THIELEN INC - Sacramento, CA February 2009 to February 2012 * Managed all retail and online related customer contacts. * Provided quality responses to customer contacts in person, telephone & email. Dealing with

enquiries& answering calls from new and existing customers. * Suggested solutions to customers in a positive manner. * Dealt with all escalated complaints and enquiries efficiently and effectively. * Communicated promptly any information to customers about their orders. * Helped customers to register online and/or to process their orders. * Gave customer's information about company services and products. * Built relationships with customers. * Recorded all queries and made notes on logging software. * Resolved assigned incidents within pre-agreed timescales. * Familiar with all with Microsoft packages * Handled difficult and aggressive customers in a professional manner. * Assisted the finance Department with customers on security checks Solicitor Legal Assistant NATHANIEL & Co - London January 2007 to May 2008 * Assisted solicitors in various matters concerning real estate, social services, criminal justice, family matters and common law cases. * Gained practical experience and knowledge in legal issues and terminology. * Prepared and interpreted legal documents. * Prepared pleadings, subpoenas, and other legal documents. * Scheduled appointments, court appearances, and depositions. * Advised clients on legal issues relating to their cases. * Under took legal research. * Acted for an international company, involving the drafting of confidentiality agreements, employment contracts and license agreements. * Attended at tribunal - DLA and ESA appeals. * Negotiated settlements and outcome for clients. * Involved in setting up a limited liability company and drafting partnership agreement. * Drafted Board Minutes, Resolutions and Companies House forms and updating statutory books. * Proof read and amended in house articles, updates, loan agreements and commercial contracts. * Provided on-going lease management advice to corporate landlord, dealing with tenants' applications for Licenses to assign, alter, sublet and drafted Deeds of covenant and rectification. * Drafted and negotiated Authorized Guarantee Agreements. * Produced Lease Management Schedule and advised the clients on key terms. Operations Manager Domiciliary Care - London November 2006 to December 2007 * Provided operational and commercial leadership by managing office and care staff. * Ensured services met the governing body and other regulatory requirements. * Managed the delivery of domiciliary care. * Provided personalized, focused services for service users. * Liaised with, and maintaining excellent relationships with care managers, doctors, nurses,

local authorities, families, service users and staff. * Developed the organization by identifying new business opportunities, networking and maintaining business relationships. * Conducted interviews with service users and their families. * Maintained accurate records and prepared reports for legal purposes. * Visited Services users at their home to work out appropriated care plan and support. * Provided information and counselling support to service users and their families. * Participated in training, supervision and team meetings. * Updated policies and procedures. Education BACHELOR in LAW Gwinnett Technical College - Lawrenceville, GA August 2014 University of Kent at Canterbury - Canterbury July 2006 Skills DATABASE (7 years), MS SQL SERVER (7 years), SQL (7 years), SQL SERVER (7 years), CLUSTERING (5 years) Additional Information TECHNICAL SKILLS RDBMS: SQL 2005, SQL 2008/2008r2, SQL 2012, SQL Server 2014. Database Administration, Enterprise Environments, Tuning with SQL Profiler, Clustering, SQL Server Integration Services. Operating Systems: Windows NT/2000/2003/2008/2008R2/2012R2
