The datasets are collected from back end server PHP file using API and these datasets are then rendered on front end using JavaScript, HTML, DHTML and CSS. Developed PHP based server side API using Zend framework and implemented MVC architecture. Created

front end interface using object oriented JavaScript and AJAX with API The front end interface is able to interact with server side PHP code which is called by using REST API through AJAX. The JSON data sets returned are then rendered in appropriate format such as pdf, xls, csv and charts.

Strong expertise in Web Application development using PHP with OOPs, CVS, SVN, MySQL, MS SQL Server 2008/2005/2000, JavaScript, JQuery, AJAX, CSS, Flash ActionScript 3.0 and XML.

Created Web back-end user interfaces to new and existing databases utilizing PHP and MySQL/Oracledatabases. Responsible for creating efficient design and developing User Interaction

screens using HTML5, CSS3, JavaScript, JQueryAJAX and JSON. Worked with symphony,

design patterns like singleton pattern, registry pattern and model -view-controller pattern in Zend

framework. Environment: PHP5, Linux, Apache, MySQL, LAMP, Wordpress, Magento, HTML, Ajax,

CSS, JavaScript, jQuery, Bootstrap, and Git Sr. PHP Developer Petra Manufacturing Company -

Chicago, IL February 2016 to 2018 Responsibilities: Implemented AJAX and JQUERY on

front-end to make the web page more dynamic. Created DOM for datasets. Worked with datasets

in JSON format. The datasets are collected from back end server PHP file using API and these

datasets are then rendered on front end using JavaScript, HTML, DHTML and CSS. Developed

PHP based server side API using Zendframework and implemented MVC architecture. Created

front end interface using object oriented JavaScript and AJAX with API The front end interface is

able to interact with server side PHP code which is called by using REST API through AJAX. The

JSON data sets returned are then rendered in appropriate format such as pdf, xls, csv and charts.

Strong expertise in Web Application development using PHP with OOPs, CVS, SVN, MySQL, MS

SQL Server 2008/2005/2000, JavaScript, JQuery, AJAX, CSS, Flash ActionScript 3.0 and XML.

Created Web back-end user interfaces to new and existing databases utilizing PHP and MySQL/

Oracledatabases. Responsible for creating efficient design and developing User Interaction

screens using HTML5, CSS3, JavaScript, JQueryAJAX and JSON. Worked with symphony,

design patterns like singleton pattern, registry pattern and model -view-controller pattern in Zend

framework. Environment: PHP5, HTML, CSS, Java Script, Ajax, MySQL, JQuery PHP Developer

John Hancock - Boston, MA September 2014 to December 2016 Responsibilities: Responsible for

creating and implementing news forums, information page and customer assistance page in Drupal Commerce. Experience with TeamSite customization using CSSDK. Extensively worked with Java Script, HTML, CSS3, Bootstrap, JQuery & AJAX to design and enhance the UI. Experience in Creating and Consuming RESTful web services using WebApi2.0 Used Ajax with JSON and ASP.Net MVC Ajax helpers for asynchronous execution. Strong control over database design and programming (stored procedures, functions, views, DDL and DML) using SQL Server. Configured Cron jobs using Unix. Involved in designing wireframes for HTML and CSS format. Developing PHP, HTML, CSS, Java Script, JQuery and AngularJS ecommerce application pages according to project requirements. Create custom Drupal modules using PHP, MySQL and JavaScript and configure required contributed Modules. Developing responsive theme using Html, JQuery, JSON, CSS, and SASS to support devices. Migration of Drupal6 to 7 versions and Involved in developing new features as enhancements. Carried out extensive verification and testing in order to set MySQL database free from SQL injections throughout course of database development and management. Worked on UNIX/Linux, MVC, Subversion, CVS, Git, Zend, Cake PHP, CodeIgniter Framework, Word press, and LAMP toolset. Built AJAX pages using PHP to display current server time Used PHP 5.0 to develop php application code for websites. Performed various procedures needed to maintain server and database of company. Provided backup service to company server Design and Coding of the data representation pattern and APIs. Used JavaScript for client-side validations, and AJAX to create interactive front-end GUI Design and Development of an Internal dashboard to manage customer accounts, in PHPStack. Design and Coding of User Interfaces using JavaScript, HTML and CSS. Developed Graphical User Interfaces using UI frameworks Angular JS and Webpages using HTML and JSP's for user interaction. Used Symphony framework to develop PHP applications Creating a message queuer on a memcache backend by Zend Framework Embedded PHP and HTML formatting pages and JavaScript validation. Worked on JIRA using REST API Worked on Blind SQL injection in web application. Environment: PHP, Zend, MySQL, Linux, HTML5/HTML, CSS3/CSS, JavaScript, JQuery, Bootstrap, Angular JS, XML, Apache Tomcat, MS Azure, SVN, Bitbucket

Software Developer Wells Fargo - Charlotte, NC March 2012 to July 2014 Responsibilities:

Worked on SQL Server and MySQL. Worked with cross-browser and cross-platform issues (IE, Firefox, Safari, and Chrome.). Built modern responsive sites utilizing CSS and HTML skills.

Utilized JavaScript and JQuery. Extensively used Photoshop & Image optimization. Optimized themes for fast site performance and involved with Word press troubleshooting. Developed efficient web services and APIs. Experience developing REST or SOAP APIs. Handling JSON response and expandable list view. Worked on various caching types such as memcache, apc, cdn etc.

Created data-driven web applications using PHP and MySQL. Implemented cross-browser functionality, mixed-server environments and cross-platform constraints.

Demonstrated proficiency with Web content development, graphics creation/optimization, site design and structure, strategic planning and multi-media elements. Utilized Photoshop, Dreamweaver, and related programs. Listing and controlling inventory through admin panel. Environment:

PHP 5, MySQL, XML, Apache, HTML 5, LAMP, API CSS, JavaScript, Wordpress Application

Developer Amazon - Seattle, WA August 2010 to February 2012 Responsibilities: Developed a user friendly secondary back end to update and maintain multiple Magento e-commerce installs using PHP, CSS, HTML, MYSQL and MSSQL. Used HTML, CSS, javascript, jquery on client side.

Back end development and maintenance of websites using PHP and MySQL. Efficiently developed code for different modules by using Oracle SQL, PLSQL and Shell scripting Worked on applications and developed them with XML, JSON, XSL (PHP, Django, Python, Rails) Worked on HTML, CSS, and of digital imaging and illustration with Adobe Photoshop, InDesign, and Illustrator Worked on JavaScript, ASP.NET, and PHP and with Macromedia Flash. Worked on

theme layer for Drupal Worked with the Foundation framework and with AJAX based sites/web applications. Developed JQuery plugin for accordions and customized them meeting the business requirements.

Created Images, Logos and Icons that are used across the web pages using Adobe Flash and Photoshop. Used advanced level of HTML5, JavaScript, CSS3 and pure CSS layouts (table less layout).

Involved with front-end integration projects using various frameworks and HTML5, SAAS, CSS3, JavaScript, DOM, and Ajax technologies and methodologies.

Environment: Magento, PHP, MySQL, LAMP, Zend, Javascript, AJAX, JQuery, CSS3, XHTML, HTML5, Cake JQuery, Code ignitor, Html 5, XML, XSD, SAAS, PL/SQL, Photoshop, UNIX Education Bachelor's Skills ActionScript (2 years), Apache (5 years), DHTML (2 years), DOM (4 years), Dreamweaver (2 years), Flash (4 years), HTML (8 years), JavaScript (8 years), Linux (3 years), MS SQL Server (7 years), Oracle (1 year), Photoshop (4 years), PHP (8 years), SQL (8 years), SQL Server (7 years), Subversion (5 years), SVN (5 years), testing (2 years), Tomcat (2 years), XML. (8 years) Additional Information Skills HTML , JavaScript, PHP, SQL , XML.

TECHNICAL SKILLS: PHP 4/5, HTML,DHTML,XHTML,XML,DOM,PERL5.8, ActionScript 3.0, JSP, JavaScript, Flash 9,Adobe Photoshop CS4, Dreamweaver 8,Jquery1.2 Frameworks Zend, Slim, Cake PHP, Magento Application/Web servers Apache HTTP server2.0/2.2,Tomcat 4/5,Jboss 4/5 RDBMS MySQL4/5, MS-SQL server and Oracle 8i/9i/10i and MS-Access Administrative Tools PHPMyAdmin Development Tools Eclipse3.3/3.4,Jbuilder 7.0 Version Controller JCVS,SVN SDLC Tool Rational Rose 2000, UML ,Erwin Testing Tools Junit3.8/4.0 Operating Systems Linux,Windows XP/NT/2000/vista CMS Drupal, Joomla, Wordpress
