

Systems Administrator Systems Administrator Systems Administrator - UNITED STATES MARINE CORPS Tampa, FL Authorized to work in the US for any employer Work Experience Systems Administrator UNITED STATES MARINE CORPS - Tampa, FL 2017 to Present Eliminated a whole Domain throughout the entire Unit while transferring users to their new Marine Corps Enterprise Network (MCEN). Eradicated a third-party application used to sync profiles resulting in a simplified network at a much-reduced cost. Successfully imaged over 100 unclassified machines and deployed them throughout the Unit in order to meet a directive from the Commandant of the Marine Corps requirement of being Windows 10 compliant. Domain joined and confirmed that over 200 Classified were properly configured enabling the Unit to operate on the classified enclave which enhanced the Unit's mission. UNITED STATES MARINE CORPS 2014 to 2018 Systems Administrator UNITED STATES MARINE CORPS - Seoul, KR 2015 to 2017 Coordinated with various staff level sections to successfully configure over 10 multifunction printers to be secure and ready for use. Implemented a new Print and Dynamic Host Configuration Protocol (DHCP) server for the Marine Corps Network. Successfully gave a filer a new IP along with ensuring all workstations at this Unit were able to utilize everyday work functions required by the Marine Corps. Worked alongside our Cyber Security team to maintain compliance of the Unit's assets with the Marine Corps' Operational Directives and Defense Information Systems Agency (DISA) Security Technical Implementation Guide Standards.
