

Network Administrator Network Administrator San Diego, CA . I am currently located in San Diego, CA. I have received my Cisco Certified Network Associate CCNA Certification, and I am currently working on my CCNP (642-813, 642-832, 642-902). I am seeking an opportunity that will enable me to utilize my skills, experience and adaptability to obtain an entry-level Network Administrator position. I am seeking a position where I am constantly challenged. My greatest strength is that I am highly motivated and my ability to walk into a new environment and be functional immediately. I am a talent for grasping new technologies and configurations, and adapting to new or evolving situations. I work very well under pressure. A brief highlight of the skills and values I would bring to your organization include: Knowledge of installation, configuration and troubleshooting switches and routers. Acquired analytical, research, interpersonal and organizational skills developed through on-the-job training within an IT environment. Hard-worker, determined achiever and team-player with initiative. Proven ability to provide exemplary customer service and support, contributing significantly to development of networks based on identified needs. I believe that a combination of my analytical, technical troubleshooting skills combined with a high customer service ethic and would serve well in any position. I greatly appreciate you taking the time to review my credentials and experience. I hope that you'll find my experience, interests, and character intriguing enough to warrant an interview, as I am confident that I could provide value to you and your customers as a member of your team.

Work Experience Network Administrator Dept of US Army - Hohenfels April 2011 to May 2013 As an Intern for 69th Signal BN Network Enterprise Center, I work 3 days per week plus weekends to utilize my education and troubleshooting skills. My tasks included setup, configure, and support internal networks. I assisted with troubleshooting network performance issues, switch and router upgrades, patches, network configurations and installing new equipment. I have knowledge of commonly-used concepts, practices, and procedures. I rely upon instructions and pre-established guidelines to perform the functions of the job under immediate supervision.

Education Cisco Certified Network Associate in IT Cisco 2013 to 2016 Skills Advance knowledge with LAN/WAN, TCP/IP, EIGRP, OSPF, RIPng w/ IPv4 & IPv6 Cisco/Foundry Switches & Routers. Excellent knowledge in IP Networking and Routing Protocols. Ability to install, operate and

troubleshoot a small enterprise branch network, including basic network security. Skills to diagnose, restore, repair, and replace critical Cisco networking and system devices. Knowledgeable of networking fundamentals, wireless concepts, routing and switching fundamentals, and configuring simple networks. Proficient with Microsoft Word, Excel, Access, PowerPoint, and Internet. Excellent knowledge with Active Directory and DHCP Excellent knowledge with Linux Mint, Windows 8, Windows 7, Windows XP Familiar with Ubuntu, Mac, UNIX
