

Senior Network Engineer/Tech Ops Lead Senior Network Engineer/Tech Ops Lead Senior Network Engineer/Tech Ops Lead - ACCENTURE SUS Apple Valley, MN Highly skilled network engineer with extensive knowledge of F5 LTM, VMware NSX, Cloud Computing, Arista Switching, Cisco LAN/WAN, Check Point Firewall, and Riverbed WAN Optimization. Work Experience Senior Network Engineer/Tech Ops Lead ACCENTURE SUS - Minneapolis, MN August 2016 to Present Hosting/Technology/Consulting Services Provider Design, configuration and implementation of multiple network projects and initiatives ? F5 LTM/VE, BIG-IQ ? VMware NSX (ESG, DLR, DFW) Worked with IT architect team on implementation of 'Hybrid Cloud' (combined on-prem and Azure) Conducted regular knowledge transfer and training for 20+ team members ? Contributed to documentation by creating various 'how-to' articles in Confluence Network Architect/Supervisor KROLL ONTRACK - Eden Prairie, MN August 2013 to June 2016 Legal Technologies, Data Recovery, Risk Management, Consulting Services, Business Intelligence Supervised and provided technical direction to a team of 5 network engineers ? Conducted weekly one-on-one meetings for status updates and task prioritization ? Trained new hires and junior engineers for participation in 24x7 on-call rotation ? Planned and organized monthly maintenance tasks Design, configuration and implementation of various enterprise wide network projects and initiatives ? Verizon MPLS / DMVPN WAN ? Palo Alto Next Generation Firewalls (migration from Cisco ASA) ? Multi-homed BGP / Internet ? Dynamic Routing (migration from OSPF/EIGRP/eBGP mix to fully meshed iBGP/eBGP) ? Cisco AnyConnect Remote Access SSL VPN (migration from VPN Concentrators) ? Riverbed WAN Optimization ? Aruba Wireless (migration from open network to secure/certificate-based network) ? F5 Traffic Management/Load-Balancing (LTM/GTM) ? Array Networks SSL VPN Managed vendor relationships related to global Internet resources (ARIN/RIPE/APNIC), maintenance renewals for existing hardware/software, and purchases of new hardware/software Played key role in IT planning meetings by determining network requirements and specifications for new or changing initiatives Performed design reviews and collected performance metrics to assure continuous improvement of network systems Worked regularly with IT architect team to analyze technology challenges, assess costs, and suggest solutions Senior

Network Engineer KROLL ONTRACK - Eden Prairie, MN January 2007 to August 2013
Implementation, configuration and documentation of routing and switching infrastructure
Administration of multi-tenant virtual network environment Travel within US/Europe/Asia for
network upgrades, Cisco IPT rollouts and datacenter moves Configuration and implementation of
10 Gbps datacenter switching environment Implementation and support of disaster recovery
projects Provide tier 3 support of Kroll Ontrack business applications Configured and supported
over 80 remote site installations around the world Network Engineer KROLL ONTRACK - Eden
Prairie, MN October 2004 to January 2007 Developed configuration standards for
routers/switches/firewalls Installation and configuration of Solarwinds Orion for network monitoring
Configuration and support of remote access VPN Configuration of F5 load-balancers Incident
management and change control (ITIL certified) Part of 24x7 on-call rotation Network
Administrator QUORUM LITIGATION SERVICES - Eagan, MN November 1996 to October 2004
Implementation and maintenance of TCP/IP based LAN Bandwidth utilization and monitoring
Diagrammed and documented network topology of servers, routers, switches, hubs, and cabling
Contributed to solutions knowledge base aimed at addressing both routine and critical issues
Technical Support MCGLADREY & PULLEN November 1994 to November 1996 Technical support
for 100+ tax department users Troubleshooting of Microsoft Windows based workstations
Conducted system and database maintenance for enterprise tax processing software
TECHNOLOGY SKILLSET Networking TCP/IP, EIGRP, OSPF, BGP, DMVPN, HSRP, IPSec,
DNS, DHCP, MPLS, Network Analysis, Packet Capture, Multi-homed BGP, 10 Gbps/40 Gbps
Ethernet, Fiber, VXLAN Hardware Load Balancing (F5 Viprion/5800/5050/Big-IP VE), Routers
(Cisco ASR/ISR, Switches (Arista DCS-7050, Cisco Nexus 9332/Nexus 7010/Nexus 5548/6509),
Firewalls (Check Point R80, Cisco ASA), WAN Optimization (Riverbed), SPAN Aggregator
(Gigamon GigaVUE) Software VMware vSphere, Check Point SmartConsole R80, F5 BIG-IQ,
Microsoft Visio Professional, Wireshark Education Bachelor of Arts in Marketing University of St.
Thomas - Saint Paul, MN June 1992 Skills Networking (10+ years), Network Administration (10+
years), TCP/IP (10+ years), Routers (10+ years), Switches (10+ years), Firewalls (10+ years), Cloud

Computing (2 years) Links <http://www.linkedin.com/in/robert-borowski-4003662>
