

Software Developer Software Developer Software Developer Chino Hills, CA Work Experience  
Software Developer Fineline Molds - San Dimas, CA January 2017 to April 2019 Fineline Molds  
specialized in the design, manufacture and repair of high-precision injection molds and mold  
components using CNC, EDM, hand milling, and grinding. Developed job portal for company (FLM  
Job Portal using C#, Visual Studio, and Azure SQL DB). Tracks project/ job progress,  
ordering/services, and employee work processes, project due date. Software Developer Fineline  
Molds - San Dimas, CA 2017 to 2019 Coordinate job prioritization (Calculate time remaining for  
jobs and compared to due dates and ensured employees were working on correct work to ensure  
job is complete and shipped on time) Troubleshoot IT issues (Network configuration, email  
forwarding/merging, formatting mold detail drawing files to customers desired format, printer  
connectivity) File Management and order processing (created Google Drive system for  
invoice/purchase order processing) Human resources tasks (Process and file: workers comp  
forms, insurance forms, employee complaint resolution) Created new work portal (FLM Job Portal  
using C#, Visual Studio, and Azure SQL DB) Ensure procedures are followed to maintain quality of  
work (Four times a day I check with employees to make sure they are working on the correct job and  
are not having issues) Customer and vendor communication (updated customers on status of job  
via email and phone calls to ensure they were satisfied with their service; contacted vendors to  
make sure our requested work was being done in a timely manner via phone call) Education  
ASSOCIATE OF BUSINESS, in Business Administration in ALT. PROFESSIONAL EXPERIENCE
