

Inventory Control Manager Inventory Control Manager Inventory Control Manager - Voss Lighting  
Beatrice, NE I'm truly passionate about my work and always eager to connect with other professionals. While I enjoy all aspects of my job, I think my favorite stage of a project is the interaction between myself, my team and the end user. I also like to hear feedback from customers on how our products have affected their daily operation. My current role as Inventory Control Manager allow me to offer my experience to train newer employees. I have also been on the cusp of the beginning of the company's E-commerce initiative and chat customer service program. This allowed me to communicate with customer and experience first hand what customers were dealing with.
