

Information Security Analyst / Engineer Information Security Analyst / Engineer Information Security Professional Chandler, AZ I am passionate about security and have been working with computers my entire life. My career goal is to deepen my knowledge and technical understanding of evolving corporate infrastructure and the vulnerabilities that threaten to compromise it. Being on a Red Team is the ultimate goal. I excel in macro-managed and dynamic environments; where I can experiment to find creative solutions for complex problems. I am an incredibly fast learner and am able to adapt quickly to changing conditions; such as the businesses direction or the threats in the wild.

Authorized to work in the US for any employer Work Experience Information Security Analyst / Engineer Plexus Worldwide - Scottsdale, AZ March 2017 to Present Created the Security Analyst role from Green-Space Acted as PM and Technical Expert on Security Projects Trained others who had no prior security experience or training Created and maintained metrics, policy and procedure Analysed logs to identify and mitigate security risk Analysed, maintained and engineered cutting edge security tools from the beginning of the implementation project to daily use.
