

Global IT Program Manager Global IT Program Manager Global IT Program Manager - Abbott  
Waukegan, IL Work Experience Global IT Program Manager Abbott November 2015 to Present  
l.asif.ali@gmail.com Managing the overall IT program programs for Abbott Corporate. This IT  
Project Execution Lead Radio Shack July 2005 to June 2007 Created and managed the impact of  
independent components on the application system. Provided strategic expertise to optimize the  
original solution as the main objective of the tool was to reduce the time needed in the manual  
impact analysis of a component over the entire application system. Provided operational  
management expertise to eliminate the system analysis and overhead costs. With a critical need to  
automate and standardize the system analysis, the automation tool served as a huge cost savings  
for the organization in system maintenance. IT Programmer MetLife August 2003 to June 2005 Led  
the management and maintenance of the application migration of the existing application system at  
MetLife. Managed to cut the time of traditional migration by strategically replacing with the  
automated migration component. The effort for developing the automated migration component  
instead of manual migration process was hailed as an innovative strategical process optimization.  
Education MBA in North America University of Illinois at Urbana - Urbana, IL December 2017 to  
December 2019 BS in Computer Science University of Madras February 2009 to October 2015 MS -  
Computer Applications in redundancy costs University of Madras September 2003 to October 2006  
Skills Marketing, Digital marketing, Marketing strategy, Program management, Process  
improvement Additional Information Skills footprint in marketing on IT projects across the board.  
This includes project management, delivery management and development of strategic Program  
Management plans for projects of high business complexity. Digital Marketing Managed business
