IT Support Systems Analyst Niagara Bottling LLC June 2014 to February 2015 Helped Desk technician with different level tickets for corporate end-users on and off-site. Responsible for the maintenance, repair, and support of office computers, phones, audio visual systems, video conferencing, printers, faxes and copy machines. Worked on a Microsoft SharePoint 2010 platform migration to 2013 SharePoint. Configure new workstations, repair applications, and hardware problems for end users. TECHNOLOGY SUMMARY: Familiar with these technologies. Front-end Development: HTML, CSS, JavaScript, Responsive design, and Bootstrap3 framework. Programming: Coursework with Java, ASP.NET, SQL, and Visual Basic. PROJECTS: Senior Project - Client Website Redesign Our senior project group was tasked with creating and redesigning a client's website to meet their specifications in terms of overall site appearance, responsiveness, and user experience. This project included front-end development of site pages with site template but importantly taught me how to effectively cooperate with a team in separating our workload and communicating progress to meet our project deadline. Ignited an incredible desire to learn more about web development

technologies and possible career paths. Education Bachelor of Science in Business Administration
CALIFORNIA STATE POLYTECHNIC UNIVERSITY - Pomona, CA June 2015 Skills HTML (1 year),
CSS (1 year), Javascript (1 year), Information Security (2 years), Information Technology (3 years),
Research (1 year), Risk Management (2 years), Web Development (1 year) Links
<https://www.linkedin.com/in/luisrdimas/> Additional Information I have a huge passion for web
development and web technologies that I am developing on my own time at home. I would love the
chance to work with web technologies and support business groups in technology related projects
as an analyst or specialist. I am young but incredibly driven and determined to learn any new skill so
my I do not lack anywhere in my job responsibilities. Please take a chance to get to know the type of
person that I am and the value that I could bring to your organization.
