

Web Developer Web Developer Norwich, CT I desire a challenging work environment with room for growth and eventually leadership potential. To that end, I constantly seek out training and tutorials and work with new software as much as possible. Having a wealth of experience improves my capability to meet clients' needs and exceed their expectations for ROI. Authorized to work in the US for any employer Work Experience Web Developer Southern Connecticut State University - New Haven, CT June 2017 to Present <http://www.southernct.edu> Southern Connecticut State University spent a year migrating content from their existing OUCampus based website to a Drupal website. As a University Assistant, I helped manage that transition and provided training to faculty and interns for the legacy OUCampus platform as well as contributing to the preparatory refinement of the existing site content. Languages and Software Used: HTML, CSS, JavaScript, PHP, MySQL, Wordpress, Drupal, OUCampus, Bootstrap, Eclipse IDE Web Developer YourMiniCon - Meriden, CT June 2014 to May 2017 <http://www.yourminicon.com> YourMiniCon is a pop culture expo held annually in Meriden, CT. Their site is a Wordpress base with a modified theme and several extended plug-ins. In addition to managing the event website and social media, I also managed accounting and payroll, filing contracts and agreements while processing invoices and accounts receivable. Languages and Software Used: HTML, CSS, JavaScript, PHP, MySQL, Wordpress, Wave Accounting, Hootsuite Web Developer Shorepower Inc - Old Saybrook, CT August 2013 to May 2014 <http://www.shorepowerinc.com> Shorepower is an international wholesaler of flashlights and batteries. Their site is a heavily modified Magento installation with several extensions and custom coded modifications, integrating with Salesforce. Most of the modifications dealt with processing sales recovery through shopping cart abandonment and linking to the Email Service Provider to facilitate transactional emails. Languages and Software Used: HTML, CSS, JavaScript, PHP, MySQL, MSSQL, Salesforce, Magento, Yahoo Small Business Web Developer Grand Light - Seymour, CT November 2012 to July 2013 <http://www.lightrestoration.com> Custom-built ASP.NET site for a historical light restoration company. In addition to managing the website, I oversaw a Summer Internship program that brought in four interns from local colleges to cover digital media production, marketing, front-end web development, and print media. Languages and Software

Used: HTML, CSS, Javascript, PHP, MySQL, MSSQL, ASP.NET, Photoshop, Indesign, Illustrator
