

Python/Django developer Python/Django developer Python/Django developer - Self-employed

Dnipro How to be(stay) interesting personality with own particular qualities, develop yourself, satiate curious mind throughout whole life, have unlimited perspectives and have practical opportunity to implement and apply innovative technologies? It's all about software developing. I chose key to this dream paradigm in Python awesome programming language and ecosystem. The most interesting and great persons and ideas are connected with IT and programming. The desire to be among this bright people and ideas, understand and participate brought me to back-end web development. The best way to get in touch with innovative spheres is to become a software developer. I'm impressed by Python community, this persons are passionate about their projects and are ready to share in blogs, podcasts, conferences. As a self-taught developer I really appreciate it. I continue improve Python developer skills to make it solid. I've done some web scraping and parsing projects using amazing Scrapy framework(also familiar with BeautifulSoup library). Now my focus is on building web applications by Django framework using best practices in it. Check out some of my samples at [artem-portfolio.herokuapp.com](http://artem-portfolio.herokuapp.com)

Work Experience Python/Django developer Self-employed March 2016 to Present Portfolio: [artem-portfolio.herokuapp.com](http://artem-portfolio.herokuapp.com)
