

FRONT- END DEVELOPER/PROJECT COORDINATOR/SUPPORT SPECIALIST FRONT-END DEVELOPER/PROJECT COORDINATOR/SUPPORT SPECIALIST FRONT- END DEVELOPER Woodbridge, VA Authorized to work in the US for any employer Work Experience FRONT- END DEVELOPER/PROJECT COORDINATOR/SUPPORT SPECIALIST JL SYSTEMS - Springfield, VA October 2017 to Present For the first 9 months, I was responsible for the support of the NOAH AMS and DNN CMS. I regularly trained clients on both systems. After supporting the AMS and CMS, I was promoted to Project Coordinator. In this role, I was responsible for managing projects and tasking developers with building out custom controls for the client. After 3 months as a Project Coordinator, I was promoted to Front- End Developer. As a Front- End Developer, I am responsible for all new client and existing client website design build-outs. In-person, email and telephone support for clients needing assistance with various tasks and updates for the AMS and CMS.

12605 Harbor Dr. Woodbridge, VA 22192 ? (703) 919-2741 ? ben.dishler@gmail.com Career Development ) \* Code the front- end of websites using the Bootstrap framework, JavaScript, jQuery and DNN using PSD's and/or other provided files. \* Regularly train clients on DNN - beginning and advanced training. \* Manage projects after the requirements are provided by the PM from start to finish. This involved me creating the front- end website portal and managing the developers on creating new controls for the client as needed. Website Consultant NATIONAL MEDICAL ASSOCIATION - Silver Spring, MD September 2016 to Present Part-Time - Remote) I manage every aspect of the association's website and email blasts. \* Post news items, update content, create registration based events, and add career listings \* Design and code email marketing emails \* Consistently update website so it is current. Code pages so they are more presentable to their members. \* Work with a number of different employees and board members who are all remote.

Director of Web Operations USTELECOM ASSOCIATION - Washington, DC October 2009 to May 2017 I collaborated with staff and third-party vendors to develop, implement & administer existing and new websites/systems, including designing, prototyping, and producing functional websites. \* Performed updates to Drupal using Git and Acquia Cloud servers. \* Posted content, video and images on multiple web properties. \* Actively and routinely performed quality assurance throughout,

analyzed systems for defects, security issues and developments and applied solutions \*

Represented Us Telecom through email communication with members, including the design and development of the newsletters (using Adobe tools and hand coding) as well as sending them out 2+ times a week through email blast services (Informz, Blue Hornet, Xert). Designed and ran A/B and multivariate tests on marketing emails. \* Was involved in the production (recording, use of a teleprompter) of video used to educate the public on broadband and the recording and producing of Livestream events (using a Livestream HD500). \* Utilized appropriate analytic tools to measure communications effectiveness and make adjustments as needed. 12605 Harbor Dr. Woodbridge, VA 22192 ? LAW OFFICES OF SEAN O'CONNELL - Arlington, VA October 2016 to December 2016 As a website consultant, I was contracted by the law office to completely redesign their existing website using WordPress as a CMS. I worked with the client on the design, overall look and feel of their website. The client wanted a more robust website that offered visitors multiple ways to contact them, no matter where they were on the website. I customized their WordPress install so that the admin interface was customized just for the law office and removed unnecessary navigation items that didn't pertain to their website. <http://www.swolawoffice.com>. Associate Director of Internet Services AGC OF AMERICA - Arlington, VA February 2005 to August 2009 \* Responsible for all stages of development and maintenance of AGC.org \* Performed 3 major website redesigns including a move to a new/updated CMS twice \* In charge of collecting feedback from staff (70+) on web development needs \* Coordinated all aspects with vendors to ensure that projects did not exceed budgetary and time constraints \* Managed multiple projects including an LMS implementation \* Created web ads, banners, and e-newsletters to drive attention to the web site \*

Assisted Director of IT with cloning of new workstations, administration of VOIP system, building of Windows servers and support issues, including the deployment and support of Blackberry's. \*

Would troubleshoot internal network, servers and desktops (hardware & software) issues Mapping Associate II MICHAEL BAKER JR. INC - Alexandria, VA January 2001 to January 2003 \* Produced flood insurance rate maps for the Federal Emergency Management Agency \* Worked on the FEMA

floodplain mapping project and the NC statewide floodplain mapping project. \* Performed input, update, modification, manipulation and analysis of GIS data for the FEMA project \* Was responsible for processing and converting geographic data using a variety of software tools \* Worked at FEMA performing disaster mapping, including minor hurricanes and the 9/11 disaster in NY 12605 Harbor Dr. Woodbridge, VA 22192 ?
